PAINS SOON RELIEVED HE THANKS RETONGA

"I Now Feel Better Than In Years And It Would Be Hard To Praise Retonga Enough," Says Mr. Summers. Tells About His Case.

MR. LACY SUMMERS

"When I received a stress that had bothered me for five years and it is a pleasure to pass the good word on to others," happily declares Mr. Lacy Summers, well-known farm owner of Route 1, Gibsonville, North Carolina.

"I suppose a stubborn case of sluggish elimination was in a large measure the cause of my suffering," continued Mr. Summers. "I felt full of toxic poisons, and I had such severe pains in my arms and shoulders that at times I could not raise my arms above my head, and I got practically no sleep at all. I was always a hearty eater, but recently I hardly ate enough to keep going."

"I never dreamed that any medi-

cine would give me the relief Retonga did. I feel hungry at every meal and everything seems to agree with me. All the pains and soreness in my muscles have been relieved and so is the constipation. I feel stronger and better than in years. It would be hard to praise enough."

Retonga is intended to relieve distress due to insufficient flow of gastric juices in the stomach, loss of appetite, Vitamin B-1 deficiency and constipation. Accept no substitute. Retonga may be obtained at the Kenansville Drug Store in Kenansville or at the Warsaw Drug Co., in Warsaw. (adv.)

Rones Chapel Society

Met Jan. 23

Introducing A Down and Up-Draft Tobacco Barn Oil Curer . . .

THE LEGGETT

DUE TO DESIGN

You can get all the heat wanted without turning the flues red. A real protection against fire.

HEAVY CAST BODY

All parts are heavy cast iron, assuring satisfactory service. Flame is entirely enclosed in the cast body with no leaks and is much safer than ordinary brick furnace.

OIL CONSUMPTION

Use your present flues. Installation for all barns.

A unit that will turn your oil into a gas and then burns the gas. The up-draft feeds the flame and the down-draft fans the flame into a level fire in the middle of the flue, assuring equal distribution of heat throughout the barn by use of two burners at no additional cost.

Lower fuel consumption due to up and down drafts. Absence of carbon automatically assures efficient operation. No sitting up at night.

ALL REDNESS OF FLUES AND BURNERS ARE ELIMINATED

The design of this burner DOES NOT REQUIRE ARTIFICIAL MEANS TO ELIMINATE REDNESS OF BURNER OR FLUES. No wicks or thin metal to be replaced.

LOW COST IN PRICE

Our price covers the cost of two burners with all operating parts installed at \$150.00. This applies to all barns from 16 X 16 to 22 X 22.
