"His Honor the Barber" says —

MARRIAGE is a wonderful institution... It should be a combination into one name the best from both people there are even and tribulations but bless you, its would be an in slip third instance, were it not for the knots and the bumps that feel so good when they stop hurting.

And another thing, one shouldn't become disillusioned and embittered when the first glory wears off the honeymoon. Some morning they're each going to wake up and find they aren't married to the person they thought they were marrying at all. But they shouldn't be scared, because if they look closely they'll probably find that the real person is much finer and nicer to live with than the illusion they married.

My old Uncle Joe used to say "to be happy all your life always keep handy a good conscience, a clean handkerchief, and a comfortable pair of old shoes."

When you feel a case of intolerance creeping over you, just remember one thing—you and the other fellow are pretty much alike after all. It's just that you're ignorant on different subjects.

The world is full of willing people, those willing to do all the work, and those willing to let them.

Pick any one!—but get an OIL-PLATED engine

They're all good. And you can prove that you're a good chooser... by getting an OIL-PLATED engine.

Any car you buy... (or the one you still want to keep!)... will have OIL-PLATING on guard in the engine if you make it a point to use Conoco Nth motor oil. It's patented oil. It includes the added OIL-PLATING ingredient. And this acts magnet-like—to make your engine's fine inner finish attract lubricant that's durably surfaced right on... joined up or OIL-PLATED.

OIL-PLATING gives surfaces a barrier against wear. And wear is the big cause of carbon and sludge. So you can see why OIL-PLATING is just about a must if your car is a veteran—crying for its Spring change of oil. And with a new car you'll start right and keep right by using only Conoco Nth... oil that OIL-PLATES. Start for Your Mileage Merchant's Conoco station. Continental Oil Company
