Uncle Sam Says

Under these facts, you and your family. In 1937 many Americans bought the Series C Savings Bond, similar in every respect to the present Series E bond which is the one you are now buying regularly through payroll savings at your bank or post office.

During 1947 the Treasury Department will hand over \$4 for every \$2 these wise Americans have every 10 years ago. The total payoff in interest is a staggering sum—over \$100,000,000. Nearly 75 per cent of all buyers of Series C bonds held on to them for the full 10 years. You have the opportunity now to join your fellow Americans who will share in the Treasury Department's 1947 payoff of an extra dollar for every \$5 you invest now in Savings Bonds.
