MRS. HENRY MIDDLETON

and serenity which comes from the security of a farm home well rooted in the soil, which is characteristic of so many people who earn their living and make their homes on the farm. Mrs. Middleton went through one year of college and taught school for one year. Mrs. Middleton believed with

Edgar A. Guest that "It takes a heap o' livin' to make a home." When she married Mr. Middleton they went to live at his old home place which was a small seventy-two acre farm with a lovely old colonial home on it. However, the farm was heavily mortgaged and they had very little cash money. But the lack of material means did not affect the home life that she built up in her home. There are four Middleton children, two

girls and two boys. The relationship between Mr. and Mrs. Middleton was one of happy comradeship. Before the children were old enough to go away to school the family had many pleasant evenings around the piano. All of them play some musical instrument. Another way to spend an evening was reading aloud, everyone taking his or her turn. Give and take was the slogan of the Middleton family. They worked together and played together, each contributing his part. Walks through the woods where the children, through their parents, learned to appreciate the beauty of the fields and woods, were instructive and delightful occasions for the whole family.

No sacrifice has been too great for this wonderful mother to make for her children. When the old colonial home burned instead of building a new home with the \$2,500.00 insurance check they moved into a tenant farm house on the place, and paid off the mortgage on the farm. This was done so that they might take the money they had been paying on the mortgage and help their children through college. The little tenant house is now one of the most livable and hospitable places in the county.

Mrs. Middleton has not only been a good wife and mother, but she has been one of Duplin County's most outstanding Home Demonstration Club women for 25 years. Cooperating with the very first agent who came to the County. It has been her privilege to serve where she was most needed. She has been the president of her local home demonstration club, the president of the county council of home demonstration clubs, county chairman of nutrition and home beautification programs, chairman of the State Home beautification program, recording secretary of the State Federation of Home Demonstration clubs and has been vice-president of the State Master Farm Home Maker's Guild. Through cooperation with the Home Agents, N. C. State College Agricultural Extension Service, and various southern agricultural magazines, her influence has been felt throughout the South. Her year-round gardens won prizes two different years in the Southern Ruralist contest for better gardens. In 1929 she was honored by the Farmer's Wife and the North Carolina State College of Agriculture as a Master Farm Home Maker. On March 6, 1935, she was invited by the head of the N. C. State College Agricultural

Extension Service to broadcast during the Farm and Home Hour from Washington, D. C. As a result of this broadcast she has received many letters from people who were interested in her talk. Mrs. Middleton was one of sixteen women appointed on the National Advisory Council of leading farm home makers from all over the United States by the Perfection Stove Company. She was given a complimentary trip to Cleveland, Ohio, where she was shown through the factories and extended many social courtesies. In 1940 Mrs. Middleton went to New York to attend the Congress for Democracy.

For the past twenty-seven years she has done everything that she could to promote better rural conditions among the farm women of the county and State. She has attended every Farm Woman's Short Course that has been held at the Agricultural College of North Carolina. This has helped her render better service to her home and to her community.

Mrs. Middleton has said that home demonstration club work had helped her more than any other one thing, not only in broadening her outlook in life, but financially as well. Through home demonstration curb markets she sold cakes and vegetables. Mrs. L. P. Best, of Warsaw, gave Mrs. Middleton some shrub cuttings from which she started a small nursery, which has grown until now is self-supporting and furnishes a small income year-round. Mrs. Middleton has been rewarded for her sacrifice and efforts to give the very best to her family. Two of her daughters are married and have nice homes. Her oldest son is married and doing well. Her youngest son served his country overseas.

In answering the question, what is your definition of a home? (in the Master Farm Home Makers Work Sheet) Mrs. Middleton wrote, "Home is a sacred name for a house, and one of God's institutions, a place where we obtain happiness, health, food, imagination and character. Last, but not least, a place where the sweetest flowers on earth grow, the children that God has entrusted to our care."

With all of her other duties Mrs. Middleton has given her Sundays to her Church. She has taught a Sunday School Class for the past 22 years and has cooperated in any way that she could to promote Christian work in her community.

3 HARVEST SEASONS every year

Spring—Summer—Fall

ALL-CROP HARVESTER

"SUCCESSOR TO THE BINDER"

Rising your whole year's work and investment in a single crop is no longer necessary. The All-Crop Harvester handles a wide variety of crops that mature at intervals from spring till snow flies. You have money coming in during three seasons instead of one. Early clovers and grasses open the harvest season in late spring and early summer... followed by sun-drying grains... then fall seed crops, sorghams and soybeans. This one home-owned machine harvests them all. The All-Crop Harvester's wide, rubber-faced bar cylinder with its finger-tip speed control gives you a choice of over 100 crops. Crops that not only diversify your income but improve the fertility and productivity of your entire farm. Many legume and grass seeds qualify for the 1947 conservation payments of \$5.50 per acre. Market prices for bushel are also excellent for most seeds.

RADIO FLASH
Listen to the NATIONAL FARM AND HOME HOUR with EUGENE MITCHELL... Every Saturday, NBC.
