From where I sit... by Joe Marsh

That Ring Around the Bathtub

Bob Crowell blew his top the other day. Seems that for weeks he's been trying to get his youngsters to scrub out the bathtub after using it. And this night he sees two rings around it—one where young Jimmy left off, and another about Patsy's level.

He narrows and narrows—and takes it up on the stairs for her lack of discipline. And later that evening he sees her excitedly polishing the tubwood table with the ring he's left there with his cleaning glass of beer!

From now on, Joe's careful to put his glass down on the table cover—like the museum doc. And I hear he's a little more forgiving about rings around the bathtub. Just keeps on politely reminding.

From where I sit, there are little annoyances in every family—disturbing habits and customs in every community. A "housewife"—a little more "zeal" and "discipline" is the only antidote.
