HELP WANTED—MALE
Profitable Work For Young Men In Japan

All Expenses Paid and \$80 per mo. You've heard of the fighting 1st Cavalry Division — first to reach Manila, first in Tokyo. Its men wear Distinguished Unit citations for action on Los Negros, Kwajalein and Leyte.

Today, they're in Japan, and if you are otherwise qualified you can be one of them!

Sports, entertainment and travel opportunities are highly developed in this division's area. Luxurious hotels, theaters, swimming pools, tennis clubs, golf courses and ball parks provide more choice of pastime than is enjoyed by the average civilian at home.

High overseas pay (20 per cent above domestic base pay), excellent medical and dental care, good food and lodging and a generous retirement plan make this opportunity too good to miss.

Young men who can meet prescribed standards, and who enlist for 3 years, are entitled to designate the 1st Cavalry Division (Me-

chanized) at time of enlistment. Initial training given before departure from U. S. Get full details at U. S. Army Recruiting Station in Goldsboro, N. C.

County Agent's Office

L. F. WEEKS

BLUE MOLD

Blue Mold has spread generally through the southern and eastern part of Duplin County during the past week. The supply of Fermate has been exhausted and there is no encouragement that more will be available during this spring.

A limited amount of Bismuth Subsallylate is available for spraying for blue mold. This material has given good results where properly applied.

Vatsol which is used with this material for a spreader is not available, but 70% rubbing alcohol can be substituted.

Bismuth Subsallylate may be prepared as follows: 12 ounces of Bismuth Subsallylate, 1 pint of 70% rubbing alcohol, and 50 gallons of water. Place Bismuth Subsallylate and alcohol in jar, add some water and shake well. When thoroughly mixed pour this solution into the required amount of water and keep well stirred while spraying.

PEA APHID

English peas may soon be attacked by pea aphid (plant lice). These may be controlled by dusting with 5% DDT, or 0.75% Rotenone at the rate of 35 pounds per acre.

Striped cucumber beetles may be controlled by dusting with Cryolite or 0.75 percent Rotenone.

CORN CONTEST

Don't forget to enter the Duplin County Corn Production Contest. Any person growing 3 acres or more may enter this contest by notifying the County Agent's Office

by May 15.

Every person producing 60 bushels of corn or more on their 3 acres will be invited to a county wide banquet at the end of the year. Valuable prizes will be offered to the winners.

Come on let's see if you can triple the county average yield on three acres.

Meat production under Federal inspection for the week ending on March 15, totaled 280 million lbs.
