Uncle Sam Says

This is getting-ready time for my farmer friends and nephews. Today's plowing and investment in money and labor may or may not pay off in rich crops. There's a big IF in every farm family's life. If the sun shines, if it doesn't rain too much, if we have a drought—H, H, H. However, there's one crop which has no "IF" side. It's a crop of Savings Bonds, which grows steadily, rain or shine, wind or calm, year after year until it produces \$4 for every \$1. My city friends and high school boys should take a few dollars and playing on the payroll savings plan of by arrangement with

Duplin held a higher percentage of calves grading number 1 than any other county. Duplin also had the second largest number of calves in the show.

Each calf was sold at auction on Thursday afternoon, April 10. The 104 calves averaged \$25.08 a hundred on foot.

A slow acting nitrogen fertilizer that feeds crops over a long growing period has been developed by soil scientists of the U. S. Department of Agriculture.

The sulphur in this dust mixture will also aid in the control of red spider if a good job of dusting is done so that some of the dust reaches the under side of the leaves.
