Let's go back a few years and figure progress. Progress is a wonderful word, full of wonder, hope, and unions - but the last is a word that kills the hope, and only wonders who they can ruin next. I know this last remark may make a few folks sore at me, but it's the way I feel, and the way I feel is the way I write. And I'm not trying to be like the fellow (I forget his name) who once said "I don't care what you say about me, just so long as you mention my name" - (STUDY above CENSURE on the above remarks may avoid disappointment).

But really, my subject PROGRESS is a much lighter vein. I am simply, and very simply, referring to the time when Marge and I first lived in a Trailer, (known hereabouts as a Trailer Camp) - Ours to us was Home - and altho we had many friends here to visit us and know the "workings", let me describe it - First it was a trailer built on two wheels to be pulled behind an ordinary automobile; it was compact, yes, because if you were in the Living Room and wanted to go into the Dining Room, from there into the bath and on into the Kitchen, you simply stayed right where you were to start with -- that's a Trailer - (our trailer) some of the more modern ones have two rooms; in one of those I'd really get lost. -- but PROGRESS must be served, and now Marge and I have a bit bigger home, to be exact instead of 6X16, our new home is 10X52 (figuring in feet of course, not inches) and in our new home we still have less room than in the trailer. -- THE MAIN REASON - Hall you didn't guess it -- It's because we had no furniture when we moved in, and none now, so consequently our life is one puzzle after another. Of course when I arise (when I do) I have no trouble finding the shower, but after that life becomes

one stumbling block after another; Marge insists that after I take a shower I must have fresh clothes, well, that's where the trouble comes in, we have no clothes closet, no Highboy, no linen closet, no dressing drawer, no China closet (no china) no book-shelves, so when I go to look for clean clothes, I must search among cardboard boxes, first in the 'Canned Salmon' box (which is supposed to be mine) I search for clean shorts and socks. No find - then I think maybe she has made a mistake and I look thru the 'Herbert's Bakery' box (which is supposed to be hers) there I find silks and satins that I know aren't mine, but I have to muss them up before I can be sure, - then I look thru the Rinso box (which is supposed to be our) and still NO FIND - well, only one left, it's the Budweiser case that's supposed to be left-overs, but I find there are no left-overs in our house, then my recourse is to look thru the Hamper Basket, (that's the washing that just came back) thru this I must search thru towels, linen, bed sheets, and pillow cases, wash cloths, dish towels, table cloths and Marge's clothes. Well, it just makes me wish I hadn't taken a shower in the first place -- so there folks, you have PROGRESS -- Once we lived in a dear little trailer, the sweet little woman and I, Life was so simple, (someone may think I'm quoting - if I keep on, so I'll quit) but anyway, in the trailer I could get up, bathe in a wash basin, turn around once and be dressed, and now we have an apartment and it takes me an hour to find a pair of shorts and one sock, (I seldom wear two at one time); be a mechanic to get the shower turned OFF - and then if I can find another pair of pants and shirt - well, that problem is purely problematic, - Before closing I must admit I DO LOVE THOSE WORDS. Unosit - Bob.

The program scheduled for the First Sunday night in May, sponsored by the Woman's Auxiliary of the Cabin Free Will Baptist Church, Cabin, has been changed to the second Sunday night of

Sorry this occurred but things will happen, and we are always glad to cooperate; for without cooperation nothing can be accomplished. So come just one week later please. And every body don't take the Duplin Times, as you know, will you who do, take this message to those that don't? We'll be looking for you.
