## A PROMISE FULFILLED...

The first fleet of new Greyhound coaches has arrived—  
And they are ready to carry you away in "low-cost luxury!"

At last, the finer transportation that Greyhound has promised you is rolling along the highways today!

These new buses are the first among hundreds scheduled for delivery this year... and the instant you board one of these new "Silverides" buses, you're in for more comfort than you have known in highway transportation!

Inside and out, the new coaches are vastly improved. Observation windows are larger and made with special Solex glass, gentle to the eyes and complexion, absorbing harsh sun rays. There's more leg room between seats... all chairs have deeper cushioning and a rich new upholstery... a highly-developed air

conditioning not only provides the right temperature, but controls humidity as well. Outside, the sleek outline of this diesel-powered coach is reflected in the headlights of oncoming vehicles—because of a new reflecting plastic material with which the bus is coated. All together, more than 100 improvements bring you greater comfort, safety, and speed.

Yes, one promise has been fulfilled to you... but Greyhound does not intend to stop there! In finer terminals, Post Houses, wayside stations, and even newer coaches, Greyhound will bring you all the comfort, the convenience, the economy that goes with progressive highway transportation.
