## Uncle Sam Says

You, too, can be a harvester—and not once or twice a year but every month. What a farmer—even the wheat men and women of Kansas and the Dakotas who at this moment are reaping the greatest harvest in history—would not prize a harvest every month. The harvest-month plan has popular name—the Month-to-Month Plan. Begin today saving financial needs. For every \$10.00 you plant during a month in the form of a United States Savings Bond \$25 will grow in 30 years later.
