

State College Hints To Homemakers

By VERA STANTON
Assistant State Agent

The built-in sweetness of fall pears and apples can be an aid to homemakers in stretching the sugar budget. On the average these fruits are about 10% sugar.

The simplest way to make the

most of natural pear and apple sweetness is to eat them out of hand. But for variety, try them in salads dressed with cheese. Split a pear and fill the center with Roquefort cheese thinned with a little cream. Dress apples with cottage or cream cheese mixed with chopped chives. For a note of color, add nuts, carrot strips, or green peppers to the salad - or use grapes or raisins to lend it even greater sweetness.

Sour cream dressing makes another tasty companion for pears

and apples. Plain cooked dressing is also good with fruit salad. Make it of eggs, vinegar, milk, seasoning, and a little table fat, and cook it over simmering water.

For glazed pears or apples, quarter the fruit and bake with a little water until partly cooked. Then spread with bright-colored jelly, and continue baking until fruit is tender with a shiny surface.

AT HOME ON THE FARM WITH THE CITY COUSIN

With nearly everyone suffering from "cost-of-living nerves," it is encouraging to see so many people coming to the defense of the farmer.

L. C. Laney, assistant Mecklenburg farm agent, was telling me last week:

"Lots of people have been laying the responsibility for present high prices on the farmer. But he is being pinched just as much as anyone else." Dairy feeds, he said had jumped \$17 a ton in a recent five-week period, but milk prices held their own. Laying mash, essential for egg production, is up \$10 a ton. Due to the world shortage of grain, wheat and oats are up \$18 a ton, and soybean meal up to \$21.50.

In this respect, farmers who produce such commodities as meat, poultry products, and milk, are also consumers, for they often rely heavily on the selling market for their chicken and livestock feeds. They must pay farm labor bills, too, and this cost has increased three-fold since before the war.

According to figures released in June, prices that farmers have received for their products have not advanced as rapidly as the income of industrial workers.

So, the way I look at it, our Country Cousins who take all the risks connected with providing us with food should be applauded for conscientious attempts to hold down our cost of living.

State College Answers Timely Farm Questions

Q. Are strawberry plants rooted at a considerable distance from the mother plant different from those rooted near the original plant?
A. Usually the only difference is that the ones nearer the mother

plant are older and, therefore, larger.
Q. What is the best lawn grass for North Carolina?
A. Extension Circular No. 292 will give you this information. Just write the Agricultural Editor, State College, Raleigh, if you wish a free copy.

Warsaw Girl ETC Sr. Superlative

Twenty-five "senior superlatives" of the class of 1948 at East Carolina Teachers college have been chosen by their classmates in an election which has just been held at the college under the direction of Francis Colner, of Newport News, Va., president of the senior class.

Among those elected was Miss Annette Pridgen, of Warsaw. She was elected as the most studious.

Photographs of the senior superlatives will be included in a special section of the 1948 edition of the Tecocan, East Carolina student year-book.

Where They Lie Hope Can't Die

The marked graves of tens of thousands of our boys—of all races, colors and creeds—and the monument to the Unknown Soldier are a constant challenge to all of us to fight unflinchingly for unending peace.

This anniversary of one war's ending becomes even more significant when we also think in terms of the war which followed it. For each war is always bigger and more tragic than the last. We can create no more fitting memorial to all our war dead than the preservation of this world as a peaceful world in which survivors can live in security.
