

### Duplin Scouts Hold Court Of Honor In Faison School Building

The Duplin County Court of Honor was held by the Tuscarora Council of Boy Scouts Wednesday night at the Faison High School. Approximately 50 Scouts and friends attended.

Boy James, Troop 48, of Faison, received the tenderfoot badge; Bobby Miller, Stanley Bratcher, Horace Rhodes, and Murphy Thigpen, all of Troop 47, from Hallsville, received first class badges; Frank Freythe, Richard Byrd of Troop 48, Faison, also received first class awards. Archie Faries and Billie Bloom, Troop 35 Wallace, received pathfinding badges.

The Rev. J. G. Morrison, pastor of the Grove Presbyterian Church in Kenansville, David W. Powell, scoutmaster of Troop 35, Wallace, and Dr. G. V. Gooding, health officer of Duplin County, from Kenansville, presided and made the presentations.

William M. Craven, field Scout executive, was judge of the troop personal inspection. In this inspection Troop 47 of Hallsville and Troop 50 of Kenansville tied for first place.

Others attending the meeting were C. H. Miller, scoutmaster of Troop 48; E. W. Faires, assistant

scoutmaster and W. N. McLean, troop committeeman of Troop 35.

At the close of the meeting movies on "Alligator Wrestling in the Everglades" and "Wild Rodeo" were shown.

### Safety Tips for Hunters

HUNTING has long been one of our safest outdoor sports. But with another bumper crop of nimrods ready to take the field this fall, hunters must observe basic safety precautions in handling firearms.

Here Dot and Ernie Lind, America's top exhibition shooting team now on tour for Western-Winchester, demonstrate several important safety "Do's" and "Don'ts."

1. DON'T use your gun as a prop or staff in climbing over fences.
2. DO place your gun under the fence with action open before you climb over or through.
3. DO walk with the muzzle of your gun pointed away from your companion.

### Hydraulic Lift Implements

OPERATE AT A FINGER'S TOUCH

At the touch of a lever, oil pressure in the hydraulic system instantly lifts or lowers either bottom of the two-way plow pictured above. All furrows are turned in the same direction — uphill — forming miniature terraces to catch and hold moisture, reduce leaching and erosion. Dead furrows and back furrows are eliminated. . . . This is an example of how Allis-Chalmers tractor-mounted mold-board or disc plows and new field cultivators — all with hydraulic control — can give a life-saving lift to your land this fall.
