

"FASHIONS OF THE TIMES" are changing. The younger set will go feminine, as witnessed in the fuller, longer dirndl skirt with Gibson Girl blouse at the left, designed by Carolyn Schurer. The skirt is of shocking pink wool striped in blue, white, and black, the blouse of pink cotton. The white plaid tennis dress at the right shows longer fuller shorts, but adds the w jutting collar. Inset shows Mrs. Andree's big polka dot straw sailor, preview of next Spring. All costumes paraded in this two-act revue, presented Oct. 28-31 by The New York Times, stressed the new feminine look.

Halloween Carnival Woman's Club Met

The Halloween Carnival, held at the Kenansville School on Friday night was a howling, hilarious success both as to enjoyment for the young and old alike and from a financial standpoint. Proceeds from the carnival, amounting to \$375 or thereabouts will be used for incidental expenses of the school.

Everyone present seemed to enter into the spirit of Halloween. A play "The Fairy Halloween" was given and was quite pretty with costumes. The Queen parade was held and all of the entrants were lovely. Barbara Mitchell received the most votes (she represented the grammar grade department), while Betty Ingram was crowned queen of the primary grades and Dora Westbrook of the High School. The costume parade was most attractive with Millie Oates winning first prize as Little Red Riding Hood and Rebecca Grady second as a witch.

Cake walks, bingo, room of horror, fishing and many other entertaining features were enjoyed by the crowd.

Mrs. E. V. Vestal, president of the PTA wishes to thank each and everyone who had a part in making the carnival a success, and to each the appreciation of the Association.

Uncle Sam Says

How would you like a fat raise? Dream stuff, you say? It isn't. It's a cold-cash, brass tacks reality—if you want it to be. How do you go about it? Very simple. Just sign up for the Payroll Savings Plan where you work or the Bond-a-Month Plan where you bank. For every \$3 you put away now, you get \$4 in ten years. Take part of your pay each week in U. S. Savings Bonds. That's all. That's a fat gain in any man's arithmetic. And if ten years seems like a long time to look ahead, just give a thought to the smart Americans who bought bonds ten years ago, and hung on to them. Act now. Ten years will be gone before you know it!
