## Uncle Sam Says

Are you counting the days to Christmas? There's nothing comparable to the warmth of Christmas feeling. Second best perhaps is the feeling when you have the money to make dreams come true for you and your family. The most efficient and sure way to build up a healthy backlog of savings is through your company's Payroll Savings Plan for buying United States Savings Bonds or your bank's Bond-A-Month Plan. Every extra savings bond you add to your bond holdings is one more powerful stride toward security. The best Christmas gift you can give your family is to start a 16-year plan of automatic monthly bond buying. For example, your investment of \$18.75 a month in a savings bond every month until Christmas, 1957, will result in a nest egg of \$2,488.94.

## Uncle Sam Says

United States Savings Bonds have made last minute Christmas shopping worries a thing of the past for wise Americans. In fact even though you thought about what to give members of your family or close friends for a month of Sundays you could not come up with a better idea than Savings Bonds. Think of Savings Bonds in terms of what they will do for the recipient. For example, bonds provide immediate funds in the event of an emergency and help to pay for education, travel, a new home or a down and one other things which members of your family dream about. Your gift of a bond makes you a partner in the realization of the fondest hope of someone you love. What more could you ask of a Christmas gift?
