

"Milestone Model" and the Men Who Made It

Twenty men whose combined crafts and skills are representative of the myriad trades contributing to production of a motor vehicle, pose at Flint, Mich., with a "milestone model"—the 20,000,000th unit produced by Chevrolet in its 35-year history. From the engineer with his designs and blueprints, to the polisher with his buffing tool, from the chemist to the hooded welder, these are the men who keep the nation's traffic arteries humming. Despite production difficulties, Chevrolet has produced its latest million cars and trucks in almost exactly a year.

secured and said Deed of Trust being by the terms thereof subject to foreclosure, and the holder of the notes thereby secured having called on the undersigned Trustee to foreclose, the undersigned Trustee will offer for sale at public auction, to the highest bidder for cash at the Courthouse Door in Kenansville, North Carolina, on Tuesday, December 30, 1947, at the hour of 12:00 Noon, the property conveyed in said Deed of Trust, lying and being in Kenansville Township, Duplin County, and being described as follows:

BEGINNING at a stake, Thomas Miller's corner in Will Gillisple's line and runs thence North 5 West 112 poles to a stake, Elbert Turners old corner in Austen Anderson's line; thence Anderson's line East 89 poles to a stake; thence South 2 East 106 poles to a stake 9 poles East of Thomas Miller's corner; thence West along the said Miller's line 69 poles to the beginning, containing 40 acres, more or less. And being the same lands conveyed to H. C. Hasty and wife, Sarah Hasty, by Reasie Smith and wife, Lola Smith, by Deed dated November 5, 1932, and recorded in Book 318, page 507, of the Duplin County Registry.

A 10% deposit will be required of the successful bidder as evidence of good faith.

Advertised this 28th day of November, 1947. H. E. Phillips, Trustee. H. E. Phillips, Attorney 12-28-47. HEP

AT HOME ON THE FARM WITH THE CITY COUSIN

The passing of Thanksgiving -- with thoughts it brings to mind of fruitfulness and bounties of the land -- reminds me of the Tar Heel former whose hybrid seed corn was so good he was forced into the saw mill business.

I didn't believe it either, but Jerry Bason, Alamance County farm agent for the Extension Service says that's the way it was told to him.

The story gives us a picture of bursting corn cribs and a County Cousin in the background trying to help undo some of the damage.

You see, he's J. T. Dixon, a pioneer hybrid corn breeder of Snow Camp. Me's assembling a saw mill to make lumber with which to build cribs for the farmers who planted his seed corn this year, because, as he puts it: "The cribs just won't take of the crop."

The same bulb will give 50% more

POOR LIGHTS FRONT END AND STEERING

Don't put up with dim, misadjusted lights--when you can enjoy driving with bright, properly focused lights--it costs no more in battery power. Our new Bear Headlight Tester is a scientific instrument that quickly tells how strong your bulbs are--whether they are in focus and what adjustments are necessary to obtain proper lights for safe, comfortable driving.

You'll be amazed at the difference a few simple adjustments can make in your headlights. This new tester gives an accurate test--no guesswork. It checks and double checks all adjustments. We guarantee this service. Stop in for a check-up today.
