Uncle Sam Says  
Want to know a Leap Year proposal you can accept whether you are single or married and have a dozen children? It's the proposal to join the Payroll Savings Plan for buying United States Savings Bonds, or the Bond-A-Month Plan at your bank if you are self-employed. Millions of my nieces and nephews have learned from experience that a growing nest-egg built by regular buying of United States Savings Bonds is the best personal guarantee of a happy future.

**Farm Ownership Family Records Are Good**

At a meeting Wednesday, Feb. 25, 1948, of the Farm Ownership families who have purchased farms through the assistance of the FHA program in Duplin County, it was shown that 21 of the 54 families have paid for their farms in full.

The first farm purchased was in the fall of 1939. All farms were purchased on a 40-year repayment agreement, which means that 21 of these families repaid their 40-year loans in nine years or less. The remaining 33 families have, on an average, paid more than one-half of their land debt. No family in Duplin is behind schedule on their land payments now.

It was explained at the meeting that the FHA still has money available to buy farms at 3 1/2% interest repayable over a 40-year period.

**Mar. 15 Deadline Farm Worksheets**

Duplin County Farmers have until March 15th to complete their farm worksheets for 1948 states J. E. Sloan chairman Duplin ACA. These worksheets show the soil conservation practices for which each farmer desires assistance on his individual farm. The funds available to pay for practices for 1948 are approximately one-half of the amount in 1947, therefore it is important that farmers desiring assistance file their request before March 15.

To qualify for assistance the farmer is obliged to carry out conservation practices as specified. Checks are made to see that they are carried out to assure the desired conservation results.
