Easy Steps to Furniture Care

HIGH REPLACEMENT costs of furniture today makes care of our household furnishings especially important.

Regular shampooing for upholstered furniture and polishing and waxing for wood furniture, pays rich dividends.

Furniture that is used daily is subject to blemishes and scars that should receive immediate attention. Sometimes professional treatment is required, but most of these minor repairs can be made by any homemaker.

A bottle of carbon tetrachloride is your best friend for spots and stains on upholstered furniture. This has little or no effect on fibers or color of the fabric. However, it is always best to test the upholstery in an inconspicuous spot before proceeding. Moisten a clean soft cloth to sponge the spot, working from the outside of the spot toward the center. After each application blot with a clean white blotter or absorbent cloth, to take up the dirt.

Cleaning fluids with a carbon tetrachloride base are particularly effective for grease or oil spots.

Wood furniture surfaces damaged by white water marks, alcohol stains, heat marks, scratches and occasional burns should be treated as promptly as possible.

White watermarks may be removed from a waxed surface by removing the old wax (do this by applying bottled liquid wax freely and wiping up while still wet). Then apply a fresh coat of wax.

For other finishes wring a cloth out of water to which a few drops of bottled ammonia have been added and rub spot lightly.

Alcohol stains from perfumes, beverages or medicine should be wiped up immediately with an oiled cloth. If stains have been neglected apply a mixture of rottenstone or powdered pumice and bottled lemon oil.

Rub on with a circular motion, wiping up immediately with a cloth moistened with lemon oil. Wipe dry with a clean soft cloth and polish.

For heat marks on varnish or shellac finishes call on the camphor bottle from your medicine cabinet. Rub on with a damp

1. Light burns on wood surface. faces can often be removed with scratch-removing furniture polish. Deeper burns require more elaborate treatment with steel wool, bottled turpentine, and shellac, finished with the bottled scratch-removing polish.

2. Best antidote for scratches in furniture is a bottled polish made for the purpose. This scratch-removing polish incorporates a stain which makes the scratches invisible. For deeper scratches, apply a touch-up wood stain available in small bottles.

3. The camphor bottle from your medicine cabinet is a valuable assistant in removing heat marks from varnished or shellacked surfaces. Rub it on with a damp cloth and finish with your regular polishing procedure. For watermarks use bottled oil of peppermint.

4. Spots and stains on upholstered furniture, particularly grease spots, should be removed as promptly as possible. Use bottled carbon tetrachloride rubbed in lightly with a soft cloth. Blot up excess with a clean white blotter. Continue this treatment until spot is gone.

Furniture polish may also remove the effects of light surface burns. For severe burns, try rubbing with fine steel wool (grade 0). Brush away scrapings and rub on bottled turpentine with a soft lintless cloth. When it is dry cover with a thin coating of white shellac. Finish off with scratch-remover furniture polish.

It's Up to Us!

Today it doesn't require a genius of a Barney Baruch to look into the future and see that America faces a great crisis. It doesn't require the wisdom of Solomon to know that if present conditions continue we are headed right into a deep and shocking depression so great that it might affect the fundamental pattern of our economy, and hence the entire future of the nation.

We can, if only we would, prevent a serious depression for many years. But to do so would require three things we now definitely lack. These proper things will not likely be done and the depression will likely come. In the midst of a sobering depression, however, we might muster sufficient courage to do the right things and thereby shorten its duration.

What If It Comes?

I want to outline those necessary steps which could prevent depression if taken now, and which would shorten a depression if taken after it is upon us. In the first place, there is required a brand of bold, courageous, forthright, non-political executive leadership beyond anything Washington seems likely to display.

In the second place, it would necessitate a lot of new, daring, venturesome, resourceful industrial activity, which because of unfavorable tax rates, industrial strife, and general want of vision, we seldom see. In the third place, it would require from labor leaders in general a very genuine, honest, sincere, and effective effort to remove all practices and policies that hinder maximum production per man-hour, and that needlessly add to the cost of goods, construction, and so on, of which we likewise see but little.

Toward Real Balances

These three steps would bring about three conditions necessary if we are to prevent depression, unemployment, and mediocrity. One of the first things this formula would lead to would be real understanding and cooperation between industry and labor, which is an essential to the continued welfare of this nation. We have not fooled ourselves into the foolish belief that these great segments of industry must ever be at cross purposes.

In the second place, these things would lead to an increase of at least 40 per cent in actual amount of goods produced without increases in labor costs. At the same time there would be no decrease in rate of wages earned. This would rapidly increase the effectiveness of competition and would bring cuts in prices ranging from 20 to 25 per cent, thus giving a real raise in standards of living for the entire public, labor as well as others.

A Simple Formula

In the third place, these lower prices would increase demand for our goods. American industry has, more nearly than that of any other nation, reached the mass markets. Our industry has produced goods that make the least of us veritable kings. And the end of this is nowhere in sight.

This advice sounds extremely simple, and it is just that simplicity that makes the formula worthy. This simple formula for prosperity of the entire nation requires only honest, intelligent, unselfish, courageous citizenship and leadership. May God raise up the leadership for the sake of this nation, our posterity, and the world. May we, individually, exercise the intelligent citizenship the days ahead will require.

Beulaville P.T.A.

The Beulaville P.T.A. will meet Monday night at 7:30, April 12. All members are urged to be present. Officers will be elected and installed for the coming year.

After the meeting is adjourned, "Open House" will be held in the elementary school building.

The art exhibit will be on display in the various rooms as was announced by the art chairman, Mrs. Laura Cox. All parents members and visitors are invited to visit the rooms.

New Negro County Agent Named

The Negro County Agents' office vacated sometime ago was recently filled by Riddick E. Wilkins.

Wilkins is a recent graduate of A. and T. College and a Veteran of World War II, holding three Battle Stars. He came to Duplin County from his native home in Washington County.

Wilkins is greatly impressed with the work of Mrs. Mable B. Fatterton in carrying on the Negro Extension work. He believes that as a team, they can do much to bring the standard of living of rural people up to that of our cousins in the cit.

His program of work stresses diversified farming and the capabilities of some of the new varieties of Hybrid Seed Corn. He urges all farmers to request any information needed to improve Farm and Home life.

Hasty-Tyndall Vows Spoken

A wedding of sweet simplicity was performed on Wednesday morning, April 7, when Miss Hortense Tyndall became the bride of Mr. Rudolph Fulton Hasty at a double ring ceremony performed in the home of the bride at 10:00 in the morning with the Rev. John M. Cline, pastor of the Kenansville Methodist Church, officiating. On each side of the improvised altar were standing baskets of fern and white gladioli and smilax trailed the mantel on which were burning white tapers and small clusters of

white flowers. The candles were lighted by Mr. Hugh Tyndall of Kinston.

The bride and groom entered the room together. The bride was dressed in an original model white gabardine suit with navy blue accessories. Her shoulder corsage was a purple throated orchid.

The bride's mother was dressed in navy blue crepe with navy accessories and her corsage was red roses.

The groom's mother chose for the occasion a brown suit with matching accessories and her corsage was of talisman roses.

Guests were: Mr. and Mrs. Leo Hasty of Hasty, N. C.; Mr. and Mrs. Hugh Tyndall of Kinston and Mrs. Lucy Tyndall of Kinston; and close friends of the bride and groom.

The bride is the daughter of Mr. and Mrs. Eugene Tyndall of Kenansville and a graduate of Ke-

nanville High School. She attended school at E. C. T. C. and for the past year has been working in Kenansville.

The groom is the son of Mr. and Mrs. Leo Hasty of Hasty, N. C. and is now State Patrolman, stationed in Duplin County. They left immediately after the ceremony for an unannounced trip. The bride wore for traveling a blue linen suit.

The couple will make their home in Beulaville, N. C.

BUFFET SUPPER

On Tuesday evening at 6:30 Mr. and Mrs. Eugene C. Tyndall, parents of the bride, entertained at a buffet supper honoring the bride and groom. The supper was served buffet style in the back yard from a table most attractively decorated for the occasion. A menu consisting of fried chicken, boiled potatoes, English peas, vegetable salad, pickles, hot rolls and strawberry short cake was served to the bride and groom, relatives and close friends of the couple.

CAKE CUTTING

Mesdames G. V. Gooding and Walter Stroud entertained in the home of Mrs. Gooding at a cake cutting on Tuesday evening for the members of the Hasty-Tyndall wedding party and friends and relatives of the family. Baskets of white spirea, irises and other spring flowers were placed throughout the home in artistic arrangements. In the dining room, the mantel was banked with spirea and trailing smilax and white candles were burning on the mantel and buffet. The table was covered with a lace cloth and centered with a bowl of white flowers and on each side were candelabra with white candles tied with bows of ribbon and "rift. At one end of the table was a three-tiered wedding cake with a miniature bride and groom and at the opposite end was the punch bowl. After the first slice of cake was cut by the bride, Mrs. E. C. Tyndall served the cake and Mrs. Leo Hasty poured punch. Misses Janet Boney, Jean Tyndall and Shirley Tyndall served mints and nuts. Mrs. N. B. Boney presided over the bride's book.

Fatalities Decrease

Raleigh — During February 36 persons were killed and 473 were injured in 1,009 motor vehicle accidents on North Carolina streets and highways: the Motor Vehicle Department reported.
