Notice "C" And "D" Drivers

A report issued today by the Department of Motor Vehicles shows that since January 1, only 38,800 persons with surnames beginning with C and D have received their new driving licenses.

That means, they pointed out, that some 111,200 persons in the State are going to face a lot of inconvenience in waiting in long lines unless they get their new driving permits during May. It is estimated there are around 150,000 drivers in the State with last names beginning with C and D.

The deadline on C and D renewals is June 30, but June is also the month when chauffeurs licenses have to be renewed. They Department officials said license examiners could be kept busy during June issuing nothing but chauffeurs licenses, and unless the remaining C and D drivers report during the remainder of May, they may have trouble getting their licenses by the deadline.

Beginning with July 1, persons with E, F, and G, will be re-examined until December 31.

Uncle Sam Says

Some day soon—perhaps this very day—one of Uncle Sam's volunteer representatives is going to ring your doorbell to ask you to do one of the most important things you can do now for yourself and your country. He or she is going to urge you to start, or to increase, your buying of United States Savings Bonds under a patriotic, automatic and regular plan. If you heed my nephew or niece's advice, you'll be doing yourself a favor. For these security bonds—as they do their part to insure a stable economy, cornerstone of the future security of our country—will pay you back \$4 for every \$3 ten years from now. They can mean financial security for you and your family. **AMERICA'S SECURITY IS YOUR SECURITY!**

In Your Interest

DOROTHY DIX, noted newspaper columnist and counselor to millions of Americans, says:

"The best advice I have ever given in my long life is the advice I give Americans now: that is, keep buying and holding U. S. Savings Bonds because they will insure your future happiness. Any home with Savings Bonds is certainly a better home than one without Savings Bonds. I can truly write about the merits of Savings Bonds in the family relationship, because bonds are really very personal in their nature. Savings Bonds eventually become the things we hope for, whether it is marriage, a new home, children's education or plain leisure." U. S. Treasury Department
