### Famous Gardens

The owners of Charleston's Famous Gardens, Cypress, Magnolia, and Middleton, announced a reduction in admission for the remainder of the season to approximately half price. The Gardens will be open to May 1.

Many visitors are coming to see the Gardens expecting to see the Azaleas at their peak of bloom. Ordinarily, Azaleas, Wisteria and other spring flowers are at their height at this time, and people from all over the world come to see this magnificent spring show. Due to the mild winter Azaleas began blooming in February and have continued for an unusual blooming season. Although these planned Gardens, with their beautiful natural settings and historical interest are well worth seeing at any time, their owners, feeling that visitors who have planned their visits to coincide with the Azalea season may be disappointed, announced this reduction for the rest of the season.

Middleton Place was built in 1741 by Henry Middleton, later President of the Continental Congress, and today are the oldest landscaped gardens in an unforgettable experience.

### 67 Die On State Highways February

During February, 67 persons lost their lives in 62 fatal traffic accidents on N. C. streets and highways, a 45% increase in deaths over the same month last year.

### Sylvester Says:

"You've got a choice here!"

The only country in the world where you can still choose your own style of clothing; choose to build a home of your own; choose the materials and location. Take away the right to choose; to select, and to own and you destroy democracy. On a nationwide scale here's how Americans choose to spend their incomes.

They spend four times more for food than they do for housing and rent. They spend 1 1/2 times more for clothing and 1 1/2 times more for household expenses. They spend as much on liquor and tobacco as they do on homes and they spend twice as much for liquor, tobacco, travel, entertainment, horseracing, cosmetics and other things rarely referred to as necessities than they do on housing.

It's a great country. You still have a chance to choose between freedom and government-controlled regimentation.

### Sports Afield

BY: TED KESTING

What is a crappie? Hank Bradshaw, sportsman and writer, calls him the Babe Ruth of the pan fish.

for when a crappie takes a fly, it gets just like the Babe used to sock a baseball.

Throughout the country the crappie is called by many other names: musky bass, speckled perch, speckled bass. It bites the year around and anything that squirms, artificial or alive. It likes a clean hard bottom, comfortably pillowed with vegetation or brush, but it will also do well over mud.

Crappies stock well in most ponds and lakes. It is often recommended as the best fish to stock artificial lakes. They make good running mates with bass and northern pike.

Try night fly-fishing for crappies if you want some new thrills. They usually move into the shores to feed as the sun goes down. But when a school of crappies quits biting, there's no use arguing. You might as well quit too.
