Take Your Family To Sunday School

Over the years I have been deeply impressed with the fact that the families participating in Sunday school activities are also the families most interested in establishing a genuine home and progressive, wholesome community life. The principles of religion taught in our Sunday schools are vital in

the training of our youth and the continuance of this instruction in adult life strengthens parents in the guidance of their children and provide spiritual benefits derived only from this source. Parents who do not carry out their duty of instruction by example fail to assume their responsibility in a manner which is detrimental to our Christian society and increases the need for teaching

Sylvester Says:

"Do you believe I'm Santa Claus? I'd like to deliver this house to you at low cost, but— About \$2500. of this \$10,000. house is tax costs. Since 1939 about \$1,250. in taxes have been added to the cost of this house." Senator Byrd of Virginia suggests some places to cut government costs that will save you some money. Salaries for Federal employees—now 7 billion dollars; grants in aid 2 1/2 billion dollars; in public works under way or proposed—30 billion dollars; yearly interest on trust fund reserves—1 billion dollars. Meaningless, isn't it, except that it's your money that's being spent, and it's your living costs that are going up. Oh yes, if all low-income families are housed in public units under present social planner recommendations, it will cost an additional 150-200 billion dollars. Do you still believe in Santa Claus?

by organized religion. If we would have an enduring Christian nation we must strive to reduce crime. The plain and simple maxims of the Bible contain the essential rules which should govern human conduct.
