

Home Economist Visits County

Mrs. Marion S. Dasher, Home Economist with Farmers Home Administration, spent a day recently working with Mrs. W. B. Hunt, r. of Rt. 2, Warsaw in arrangement of storage space and location of bath room and kitchen fixtures. She also visited Mr. and Mrs. K. A. Harrison of Rt. 1, Deep Run and assisted in plans for a new room to their dwelling and the re-arrangement of the existing dwelling.

Mrs. Dasher's services are available to families in Duplin once each six weeks and she usually spends two days in the county each visit.

State College Hints To Home Makers

A very cold egg just out of the refrigerator is more likely to crack when put in hot water than an egg which is warmed to room temperature.

Garden peas just at the right stage for eating and canning, will be sweeter if picked in the morning than at the end of the day.

To hold the sweetness, the peas should be kept in a cold place after

WILDLIFE SKETCHES

These animals are important too!

SOME OF THE MOST UNDESIRABLE SPECIES - THESE BUFFERS ARE EATEN BY PREDATORS BECAUSE THEY ARE NUMEROUS AND EASIER TO CATCH - IF NOT CONTROLLED THEY SOON BECOME A MENACE TO MAN

NATURE STRIVES TO MAINTAIN A BALANCE BETWEEN HER VARIOUS POPULATIONS WHICH CANNOT BE DISTURBED WITHOUT SERIOUS EFFECT - THIS IS A BASIC PRINCIPLE IN WILDLIFE MANAGEMENT

picking until used. Shoes with high heels or floppy-soled slippers may "up" the morning morale, but may also let you down -- down the stairs the quick way.

Since nearly half of the home fatalities are due to falls, safe shoes should be essential in every wardrobe. Wedgies provide less sure grip on rugs and stairs than shoes with low heels, good arch and non-skid soles.

Safety pins, that might open under the touch of a youngster's fingers, were never intended for dress fasteners. Regular care of your clothes will prevent the need for pins.

measures and good management. As for treatment use sulfaguanidine or sulfamethazine exactly as recommended by the manufacturer.

North Carolina farmers are now showing greater interest in permanent pastures than at any time in the history of the state.

He walks 6 miles a day to bring you better service!

It may seem strange to you that your meter reader is looking out for your interest as well as finding out how much service you required last month. But he does. In doing his job he actually walks more miles each day than most of us like to think about. But it's all in the day's work for him. Like all the other 420 Tide Water people, he is bound and determined that you are going to get the best service possible. No effort is too great to assure you of good, neighborly attention 24 hours every day.

Remember that Tide Water is committed to giving the best possible service to all of its customers--on the farm, at home and in their places of business. And--if you care to check--you'll find that Tide Water brings you good neighborly service at costs below the average for all cities on the Atlantic seaboard.
