Why Church Music?

Lesson for July 17, 1949

WHY church music? Hymn books are expensive, learning new hymns is a bother, choirs are a lot of trouble. Most preachers need more time for their sermons; why not cut out the music and let them have fifteen minutes extra? No sir; it won't do. Say what you please, the average church-goer knows better than that. He may never have thought it out and he might not have heard of the word "hymnology," but Mr. Average Churchman likes music in the church, even if he never opens his mouth himself.

Liturgy

SINGING in church was not invented yesterday. In the Psalms, as in our own hymns, some of the poems were originally written and intended for use in public worship. The word "liturgy" simply means the order of manner of service, and all churches have liturgies whether they give them that name or not.

Our familiar "Holy, Holy, Holy," was written for use in an early morning service; "Bread of the world" was written as a Communion hymn; "Break Thou the Bread of Life" while often used at Communion was no so intended, as you can tell by reading it carefully; it was meant for use just before the reading of the Scripture.

"Day is Dying in the West" is best used in an out-door service. "Ivory Palaces" was written one Sunday afternoon in North Carolina for use in an evangelistic meeting that night. It might interest you to learn through your own hymnal and see how many hymns were written purposely for church use.

Songs of the Temple

THREE liturgical Psalms are our lesson selection. Use your imagination when you read them. As you read Psalm 24, think of a great procession marching through the streets of Jerusalem on a holy day and approaching the tall temple shining on the city's highest hill. Singing as they climb, perhaps one part of the congregation sings the question: "Who shall ascend into the hill of the Lord? Who shall stand in his holy place?" Perhaps another group of voices takes up the answer: "He that hath clean hands, and a pure heart..."

As the great gates swing open, the chant rises: "Lift up your heads, O ye gates!" for the King of Kings, the Lord of Lords, is marching. The little kings (in Israel and over the world) have come and gone; only the Lord of Hosts is the King of Glory. Singing the glory of God brings it before the mind far better than reading about it in a book!

Then the 84th Psalm is taken from what they called the "Chief Musician's Collection," evidently a part of what we now would call the choir library. It is the song of a man who loves the church and loves the people whom he finds there. Psalm 95:1-7b is also obviously a song for public worship, and still is sung every morning in churches around the world.

The Best is Not Too Good In ancient times when God's people were learning to sing, the noblest poems of inspired men were set to the best music available and used for the honor of God and the help of man, then surely Christians ought to do no less.

If you had a friend coming to see you, one whom you respect and wish to honor, you certainly would not set the table with all the chipped-up old kitchen china, and you wouldn't put wilted flowers on the table and you certainly wouldn't keep the radio tuned to the tin-pianest trash you could find on the dial.

No, if you have anything for him you want it to be of the very best. Why not so with God? The house of God is no place for cheap, bad music, fling meaningless rhapsies instead of noble hymns and psalms, tiresome grind-organ tunes or jazzy swing-stuff instead of music that has real power and beauty. If nonsense is bad in a sermon, it is worse in a prayer and worst of all in a hymn. If mere noise is bad in a sermon, it is worse in a prayer and unbearably bad in a hymn.

Williford's Department Store Robbed Sunday Morning

Williford's Department Store in Warsaw was entered and robbed about 3:30 Sunday morning. The person or persons breaking in entered from the rear of the building after prying open the bars at the window. Some merchandise was missing but how much was not determined. There were no clues except due to the fact that the opening between the bars was so small that anyone entering would have to have been a person of small stature.

TIDE WATER POWER COMPANY Notice of Electric Rate Increase

Under date of May 3, 1949, Tide Water Power Company filed a petition with the North Carolina Utilities Commission asking permission to place into effect certain revised and increased rates necessary to produce additional revenue and income that will be required to provide a fair rate of return upon the investment of the Company in Electric plant and facilities and, thereby, to make it possible for the Company to obtain additional capital needed to finance its betterment and expansion program. The proposed increase in the company's rates will be the first increase in the charges for electric service in the history of the Company and follows a long period of progressively reduced charges for electric service. The impact of progressively higher costs and expanding capital requirements have forced the Company to seek permission to adjust its schedules of charges.

By amendment to the original petition Tide Water Power Company, under date of June 22, 1949, has filed with the Commission rate schedules designed to produce the requested increase in revenues. The revised rate schedules that have been filed with the Commission are set forth in summary form below

Residential Service—Rate 1: First 20 kwh or less per month for \$1.50, Next 50 kwh per month @ .045 per kwh, Next 130 kwh per month @ .025 per kwh, All Over 200 kwh per month @ .02 per kwh. This schedule will supersede and replace the present rate for Residential Service designated as Schedule 1.

General Service—Small—Rate 2: First 20 kwh or less per month for \$1.50, Next 230 kwh per month @ .050 per kwh, Next 750 kwh per month, plus 100 kwh per kw of Billing, Demand in excess of 10 kw @ .040 per kwh, Balance to 5000 kwh per month @ .025 per kwh, Excess @ .015 per kwh. This schedule generally applicable to light and power service other than residential will supersede and replace present rates 2, 7A, 8, 9, 16A, 18A, 19A, 23A, 24A, and 25A.

General Service—Large—Secondary—Rate 3: Demand Charge: First 50 kw, or less, of BILLING DEMAND \$85.00 per month, Over 50 kw of BILLING DEMAND @ 1.15 per kw per month. Energy Charge: First 50 kwh per month per kw of BILLING DEMAND @ .017 per kwh, Next 5000 kwh per month @ .015 per kwh, Next 5000 kwh per month @ .013 per kwh, Excess @ .009 per kwh.

General Service—Large—Primary—Rate 4: Demand Charge: First 50 kw, or less, of BILLING DEMAND \$75.00 per month, Next 50 kw of BILLING DEMAND @ 1.10 per kw per month, Over 300 kw of BILLING DEMAND @ 1.00 per kw per month. Energy Charge: First 50 kwh per month per kw of BILLING DEMAND @ .014 per kwh, Next 5000 kwh per month @ .012 per kwh, Next 5000 kwh per month @ .010 per kwh, Excess @ .008 per kwh.

These two schedules of charges, together with the associated Fuel Price Adjustment Provision are generally applicable to light and power service delivered at secondary and primary voltages respectively to consumers with demands in excess of 50 kilowatts and will supersede and replace present rates 10, 10A, 11, 12, 33 and 35.

All other presently effective schedules will continue unchanged with the exception of the addition of a Fuel Price Adjustment Provision to present Schedule 13, applicable to Ice Plant and Refrigeration Service. The addition of the Fuel Price Adjustment Provision to this rate will result in no material increase or decrease at this time to the consumers presently receiving service under Schedule 13.

The proposed revised rates now filed with the North Carolina Utilities Commission will result in overall changes in the classified revenues of the Company as set forth below. Residential Service \$195,800 Incr., General Light and Power Service—Small 137,700 Incr., General Light and Power Service—Large 13,200 Incr., Total Net Increase \$326,300.

It is significant to note that the above estimated increase in revenues will result in an increase of only approximately \$100,000 in the annual earnings to be received by the Company after the proposed increased rates are placed into effect. The difference between the estimated increase in revenues and the estimated increase in earnings is accounted for by increased tax payments to be made to the Federal and State Governments on account of income taxes and gross receipts taxes.

TIDE WATER POWER COMPANY W. W. BELL President

The North Carolina Utilities Commission will hold a public hearing on the above petition on Thursday, July 28, 1949, at 9:00 a.m., in Wilmington, North Carolina, in the court room of the New Hanover County Courthouse, or some other local place that will be named at that time and place.

Any person desiring to enter a protest in this matter or otherwise be heard should notify this Commission in writing of such intention on or before July 23, 1949. By Order of this Commission. This the 1st day of July, 1949. MYRTHA FLEMING, CHIEF CLERK.
