

Construction Is Well Underway At Cliffs Of Neuse State Park

By Geo. Johnson
Goldsboro News Argus

The Cliffs of the Neuse state park is looking more inviting each day as construction work continues.

A check by the park this week revealed that paving of the entrance into the park has been completed. So have two branch roads and two parking areas.

Near the cliffs where the entrance road ends, a large parking area has been completed. This area will take care of hundreds of cars. Near the new, permanent picnic shelter is a larger parking area which has trees and grass between the parking lots.

Construction is well underway on a picnic shelter 44 by 77 feet. Entrance will be on the east side adjacent to the parking area. The west side is enclosed by a wall four feet high.

A giant fireplace is about complete at the north end of the shelter and a similar one at the south end is under construction. In the southeast corner will be a concession stand 17 by 25 feet.

Other work underway includes construction of a pump house. A well has been drilled, pump placed, and power lines ready to be connected.

Already in the planning are two men's rest rooms and two ladies' rest rooms, and 24 small outdoor grills. One grill has been completed near the picnic shelter.

NOTICE OF ADMINISTRATION
Having qualified as Co-Administrators C.T.A. of the Estate of Eugene Pearsall, deceased, late of Duplin County, North Carolina, this is to notify all people having claims against his said estate to present them to the undersigned Co-Administrators, with the Will annexed on or before the 14th day of July, 1950, or this Notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

Hobbs Family Lose Home And Contents

The 5-room frame residence of Mr. and Mrs. Robert Hobbs, Rt. 2, Faison, burned late Wednesday, July 13. The family's loss was complete, including all household furnishings, clothing, and food.

The Hobbs had recently purchased a new electric refrigerator and Mrs. Hobbs had just finished canning a large number of jars of butterbeans, snap beans and other vegetables. All this was lost along with a year's supply of lard. Neighbors said it appeared that the family's chickens crowded under the burning house, resulting in the loss of those, too.

The couple, who lived alone in the home, were at the packhouse, working in tobacco, when the fire began. When it was discovered, nothing could be done.

Mrs. R. A. Williams, a neighbor, said that the Hobbs had expressed their appreciation to friends who had donated money and household articles to replace the loss. Appreciation was also extended to the Faison Fire Department which went to the fire and tried to combat the blaze. The firemen travelled about four miles to the scene with the water carrying firetruck, but could not stop the fire.

Consumers paid an average price of 55.4 cents a pound for meat in 1947. Of this amount, the farmer received 35.4 cents by comparison, in 1932 consumers paid an average price of 20 cents per pound with 6.8 cents going to the farmer.

This 14th day of July, 1949.
Nora Pearsall, Louise Pearsall and Maud P. Carr, Administrators CUM TESTAMENTS ANNEXO, of Eugene Pearsall, Mount Olive, N. C. Rt. 2.

Local Breeders To Use Proved Holstein

Coastal Artificial Breeding Association, Inc. announced that semen from the desirably proved sire, Huff Sir Maude Wayne, a registered Holstein of the Southeastern Breeding Association, will be available to all customers and dairymen in the county.

This fine big Holstein, whose daughters' records show that he is proved to be an outstanding transmitter of production and acceptable type, has an American index on an 8 dam-daughter comparison of 131-60 pounds milk, 3.80% test, and 500 pounds butterfat, based on 2X milking, 305 day Mature Equivalent.

"Huffie's" daughters are big hard-working heifers - the kind that continues to fill a farmer's cans with generous quantities of high testing milk.

Of all the proved sires of the Southeastern Artificial Breeding Association that the Coastal Arti-

cial Breeding Association, Inc. is using, it is believed that "Huffie" will raise the already fine average of the bulls in the stud, of which every sire is proved Great!

The Southeastern Artificial Breeding Association is supplying semen from the high indexed proved sires to dairymen in Virginia, North Carolina, Georgia, Florida, and to customers of the Indiana Artificial Breeding Association at Carmel, Ind., who also service Tennessee.

With semen from such desirably proved bulls being used by Coastal Artificial Breeding Association, Inc., the Southeastern Artificial Breeding Association's objective to increase the efficiency of the production of human food and to disseminate inheritance proved good through the wide use of high indexed dairy sires, is being achieved.

VOTE
Saturday - JULY 23

MR. FARMER: VOTE FOR INDEPENDENCE; VOTE FOR TOBACCO CONTROL. THE YEARS WE HAVE HAD CONTROL IS SUFFICIENT PROOF THAT IT SHOULD BE CONTINUED. WE HAVE LEARNED THAT FARMERS MUST FULL TOGETHER TO GET THEIR SHARE OF THIS OLD WORLD'S WEALTH.

FLUE-CURED TOBACCO REFERENDUM

Mt. Olive Product Company
L. P. WELLS - C. D. BURNETTE
Mount Olive, N. C.

MR. TOBACCO FARMER...

Will You Pay 10c To Protect \$250?

Exports of flue-cured tobacco meant \$250 an acre to the average grower in 1948.

TOBACCO ASSOCIATES — financed through your 10-cents an acre self-assessment—works to keep foreign buyer on the tobacco market. Your Vote Saturday, July 23 for Tobacco Associates will help to protect your tobacco income.

Marketing Quotas— which insure a support price of 90 per cent of parity on the warehouse floor—go hand-in-

hand with Tobacco Associates a vital parts of the whole tobacco program.

Your vote Saturday, July 23 for Marketing Quotas will protect your Tenants and Sharecropper who share in the 1949 crop's proceeds eligible to vote in both referendums Saturday, July 23. YOU CAN AFFORD TO REFRAIN FROM VOTING!

A. C. HALL HARDWARE

WALLACE, N. C.

VOTE FOR TOBACCO CONTROL SATURDAY JULY 23

SEVEN SPRINGS SUPPLY CO.

SEVEN SPRINGS, N. C.

Tobacco Farmers! PROTECT YOUR PROGRAM Go To The Polls Saturday, July 23 Vote FOR MARKETING QUOTAS and TOBACCO ASSOCIATES

LET'S LOOK AT THE RECORD...

Without Marketing Quotas there would be no support price at 90 per cent of parity next year. You need foreign buyers when you sell your crop. Tobacco Associates is trying to keep them on the markets—bidding on your tobacco! Export Markets meant \$250 per acre to you last year. Ten-cents an acre is a small sum to pay to protect this income!

0-0-0-0 LAND OWNERS, TENANTS AND SHARECROPPERS — BE SURE TO VOTE SATURDAY, JULY 23 FOR TOBACCO ASSOCIATES AND MARKETING QUOTAS!
