New, Fast, Biscuit Recipe Wins Home Maker's Approval

Special to the Duplin Times, Friday, July 15, 1949 - "Need biscuits in a hurry? Who doesn't, from time to time?" That's the comment of Mrs. Ralph English of Mount Olive, who was chosen recently as a representative Carolina housewife to test Robin Hood Self-Rising Flour for International Milling Company, Atlanta, Ga.

"Well, here's a new recipe that I've tried that answers the problem of a fast batch of golden brown biscuits for any family," continues Mrs. English, "and I am happy to recommend it to my friends and neighbors who really want a shortcut to easier, surer biscuit-making." Mrs. English's report is as follows:

"To begin with, I was highly impressed when the young men who called on me explained that the new and improved Robin Hood Self-Rising Flour has the baking powder ingredients already added before the flour leaves the mill. In addition, the correct amount of salt for seasoning is added -- all scientifically measured and mixed to insure uniformly good results. "If I had any doubts, they were dispelled when I saw my Robin Hood Self-Rising Flour biscuits rise beautifully and quickly, using their own ingredients without my having to mix and sift a single bit of baking powder. "But remember for best results these biscuits should be baked. "Robin Hood Self-Rising Flour certainly saves a lot of time, and not having to use baking powder, I'll bet saves a lot of money, too, in the long run. I'd like for all my friends to discover this fine new baking development!" (adv)
