State College Hints To Home Makers

Keep a pad and pencil near you when packing away spring and summer cloths and jot down as you work what you put away and where. You will save time, trouble, and confusion next spring.

Systematic housekeepers post on attic or closet doors a list of articles stored in bags, boxes, or certain closets. Some also label each trunk, box, and bag with its contents. Any device which helps the housekeeper and her family know where possessions are at a moment's notice makes for good home management.

SPORTS AFIELD

By: TED KESTING

A pronounced feeling of pessimism about the future of public hunting followed reports for the 1948 season which showed more game law violations than in any previous year. More arrests, more convictions; more killing beyond bag limits or out of season; more illegal sales of game; more incidents of damaged property and slain livestock; more protests from farmers; more of everything that was wrong with hunting.

Under today's conditions, public hunting is largely dependent upon the landowner's tolerance of hunters, and upon the hunters' license money. It's really a cooperative enterprise, but the farmers' tolerance is wearing thin due to discourtesies and vandalism, and the supply of game is wearing out due partly to illegal hunting on the part of both landowners and hunters.

If the rapid trend toward more posted land and less game continues unchecked, hunting will soon collapse.

Hunting violations persist in the face of increasingly intense enforcement of laws. Despite game wardens' vigilance, many offenders go unpunished and help wreck hunt-

ing for law-abiding gunners. But worst offender of all is public apathy. Once the average hunter realizes that his own sport is at stake, he probably won't blind his eyes to other hunter's violations and bad conduct. Once the general public realizes that \$2,000,000,000 worth of its business is threatened, it will cease smiling indulgently over its neighbors' boasts of outwitting the game agents or putting that officious hayseed o fa farmer in his place.
