Uncle Sam Says

School bells are again ringing and thousands of children are back in classrooms all over the country. And many of these little boys and girls are crossing the thresholds of learning for the first time, starting the great adventure of beginning an education in a free land. They can go all the way, and that means college, if they learn to save. The School Savings Program teaches them to be thrifty and children who learn to save will certainly be better citizens tomorrow. You parents—be sure there is a School Savings Program at your school and be sure too, that your children are investing in U. S. School Savings Stamps. U. S. Treasury Department
