New Glass Backboard For College Play

Notre Dame cagers as well as college teams throughout the nation are entering their first season of play with the newly required transparent backboards. Pittsburgh Plate's RK backboard is being tested by Notre Dame footballmen, (l. to r.) John Foley, Bob Wray, Tom Johnson, Leroy Leslie and captain Kevin O'Shea. Made of half-inch Hercules impact-resisting glass, the RK backboards give spectators a full view of the basket from any angle.

It is planned to install glass lockboxes similar to the above in Kenan Memorial Auditorium as soon as funds are available.

State College Hints To Home Makers

Where there's a rub, there's wear eventually on any article of clothing. Even small unnoticed rubs may cause untimely and expensive wear in men's suits.

For example, keys carried every day in the hip pocket rub against chairs and before long may wear holes through both pocket and outer cloth. The habit of overloading pockets stretches and stains them, sometimes tearing corners.

Pencils and pens clipped in pockets have a tendency to wear the cloth.

Wide belts often cause belt loops on trousers to wear through. A narrow belt that slips through easily saves mending or replacing loops.

Trousers a little too long often wear out before their time on the lower edge of cuffs.

Do You Want To Cut Your Federal Taxes?

Something For Nothing

You know that you can't keep drawing money out of your bank account without ever putting any in. The bank doesn't play that way. This is also true of Federal financing. Every dollar spent must sooner or later be collected in the form of taxes.

Many of these taxes are hidden, such as the \$2.44 you pay on a \$30 radio, or the 82 cents on the average alarm clock. These are in addition to the direct taxes of which the average citizen is painfully aware.

Tax money is necessary to run our government. But all too much of it is wasted by inefficiency, duplication of effort, overlapping of Federal agencies or appropriations for services to pressure groups.

Heretofore, no one has known how much these government services cost us through waste and inefficiency. But some surprising facts have been revealed by the Commission on the Organization of the Executive Branch of the Government. This twelve-man, bipartisan Commission was created by Congress with the approval of the President. At the suggestion of Mr. Truman, former President Hoover was made its Chairman.

The Army, Navy, and Air Force asked for \$30 billions of appropriations after being told that \$15 billions was all the Nation could afford. The Army applied for \$29,000 tropical uniforms at \$129 apiece and homes for military personnel in Alaska at \$58,000 apiece. Yet every dollar spent in such activities comes out of your pocket in the form of taxes.

Fifty Federal agencies jostle each other collecting statistics at an annual cost to you, the taxpayer, of \$43,000,000. Many of the statistics are of use only to small groups, or collect dust in government files. The Corps of Army Engineers and the Bureau of Reclamation are expert at selling the "something for nothing" idea to the American public. Underestimation of costs appears to be their specialty. The original price tag put on the Colorado-Big Thompson project was \$44 millions. Its final cost was \$131,800,000. Such discrepancies, the Commission wryly notes, "hardly can be explained by increases in labor and material costs."

You may obtain information about how you can fight waste and inefficiency in our government by writing to the Citizens Committee for Reorganization of the Executive Branch of the Government, 1421 Chestnut Street, Philadelphia 3, Penna. Also write your Congressman! Tell him you want laws enacted which will put into effect the suggestions of the Commission!

It's a FAMILY AFFAIR

Mother doesn't distinguish between her children because one has red hair or another, blue eyes. She cherishes them all -- and knows that what they are is determined, not by what they look like, but by what is in their hearts.

So it is with all men. As children of God, all mankind is equal, one to another. As we attend church each Sabbath, let us heed the words of the minister of our faith . . . and let us pray for guidance, that we might learn to understand and love all our neighbors and fellow citizens . . . and teach our children the ways of truth and understanding. And let us resolve now, at the start of this New Year, to support our churches liberally, and attend them regularly. For it is through them -- and them alone, that we can find true peace.
