I speak for more than a million people protected by Jefferson Standard

"I am an 'average' Jefferson Standard policyowner speaking for more than a million people—policyowners and beneficiaries—whose financial future has been made more secure through Jefferson Standard life insurance protection.

"The Company's 43rd Annual Report published here shows another year of genuine progress and growth that is a source of solid satisfaction to me and my family. Assets have more than doubled in the past ten years and now total \$242,758,227. The increase in surplus and contingency reserves—that extra margin of safety for all policyowners' funds—is substantial.

"The steady growth of 'my company' through the years reflects high quality of service to policyowners.

"I note with pride that the Jefferson Standard still leads all life insurance companies in rate of interest earned on invested assets. This means that 'my company' continues to pay the highest rate of interest on dividend accumulations and policy proceeds held in trust for policyowners and beneficiaries—important extra dollars. Not since organization in 1907 has the Jefferson Standard paid less than

4% on these funds. Truly, Jefferson Standard Policy Dollars are Larger.

"Jefferson Standard sales of new life insurance in 1949 averaged more than \$10,000,000. per month, more than 25% of which came from my group—old policyowners coming back for more. Total life insurance in force at year end—\$894,202,998.

"I like the wide variety of policy plans 'my company' offers to meet the various protection needs of the public.

"I like the special training in life insurance service 'my company' provides for its agents, as well as for its branch office personnel, which results in the capable, courteous and prompt service I get in all dealings.

"It is for all these fine reasons that I presume to speak for more than a million people protected by Jefferson Standard. I am proud to be a policyowner of this splendid life insurance company."
