X-Ray Shows TB

The doctor points to the diseased area of the lung as revealed on a chest X-ray. Because tuberculosis can be detected by means of chest X-rays before there are outward symptoms of disease, tuberculosis associations, which are supported by Christmas Seal funds, urge all adults to get X-rays at least once a year.

She cherishes them all - and knows that what they are is determined, not by what they look like, but by what is in their hearts.' and 'So it is with all men. As children of God, all mankind is equal, one to another. As we attend church each Sabbath, let us heed the words of the minister of our faith... and let us pray for guidance, that we might learn to understand and love all our neighbors and fellow citizens... and teach our children the ways of truth and understanding. And let us resolve now, at the start of this New Year, to support our churches liberally, and attend them regularly. For it is through them - and them alone, that we can find true peace.'
