Basketball Tournament Creates Interest

The first Intramural Basketball Tournament in the history of the school reached a heated climax Friday afternoon when championships in the Senior Division were decided. The tournament, sponsored by the Senior Class and embracing both boys and girls teams in each grade from the third through the 12th was played in three divisions with pairings and results as follows:

Midget Division, Grades 3 & 4: Girls. Grade 4 defeated grade 3 by score of 10-4.
Boys. Grade 3 defeated grade 4 by score of 2-1.
Junior Division, Grades 5-8: Girls. Grade 5 defeated grade 7 by score of 2-0.
Grade 6 defeated grade 8 4-2.
Grade 5 defeated grade 6 4-0.
Boys. Grade 8 defeated grade 6 16 to 5.

Grade 7 defeated grade 5 by 20 to 2.
Grade 7 defeated grade 8 5-2.
Senior Division, Grades 9-12: Girls. Grade 12 defeated grade 9 by score of 6-4.
Grade 11 defeated grade 10 by score of 10-0.
Grade 11 defeated grade 12 by score of 6-4.
Boys. Grade 12 defeated grade 11 by score of 7 to 5.
Grade 9 defeated grade 10 16-4.
Grade 9 defeated grade 12 11-6.
Outstanding players were Vulezo Blount and Harry Dent of the 9th grade and Clement Craddock and Loftin Wade of the 7 grade.

The tournament was part of the Intramural Sports Program of the school which seeks to encourage each pupil to take part in some activity. Similar tournaments are planned for spring in Softball, Horse Shoes, Volley Ball, and Marbles.

Veterans Record Progress
Veterans Carpentry Classes have completed the framing of the four room demonstration house recently announced. The project, a part of the instructional work in connection with Institutional Training under Public Law 346, is designed to give actual practice in full scale reproduction of printed plans and

instructions. Progress is now hindered by slow delivery of materials needed to complete exterior walls and roof.

The public is invited and urged to visit and inspect the quality of work performed by the trainees. **Staff Plans May Day Exercises**
Plans were discussed and the organizational machinery set up for May Day Exercises at the last weekly school staff meeting. Miss S. C. Murfree of the Primary Dept. and Mrs. M. S. West of the Music Dept. will be in charge of the program. Mr. R. E. Reid is in overall charge of the parade. Miss A. L. Thompson will be in charge of the parade music. Organizations desiring to participate in the parade or furnish a float should contact Mr. R. E. Reid at the school. All signs point to a better May Day exercise than last year.

Training Course Convenes
Scouts and Scouters of the local Troop will be hosts to Scouters in the Duplin Division Monday evening, Mar. 30, when a Scouters Training Course convenes at the school at 7:30 and will consist of six two-hour lessons designed to acquaint Scouters of the Scout Program. It is being held under the auspices of the Leadership Committee of the Duplin Divisional Committee.

Movies, filmstrips and lectures will be given in each of six phases of scout activities. All scouters and persons interested in the scouting movement are urged to attend.

Mr. Bruce Boyers, Scout Executive, and Mr. D. N. Howard, Sr., Field Executive, will be present to assist and lead the discussions.

SERIOUS INJURIES RESULT FROM UNSAFE LADDERS

Falls are the principal type of injury that occur on the farm and in the farm home. Miss Hilda Clontz, county agent for Duplin, declared this week in pointing out that this is a good time of year to check ladders and other climbing equipment used around the farmstead. Farmers who fail to keep such equipment in good repair are heading for a fall.

The National Safety Council has approved the following precautions for the safe use of ladders, Miss Clontz said.

1. Firmly set the base of the ladder one-fourth of its height from the wall. 2. Always face the ladder in going up or down and hold on -- don't hurry. 3. Avoid leaning too far out on the ladder -- it is safer to move the ladder. 4. Clean mud or grease from your hands and shoes before climbing. 5. Tools or materials that cannot be carried safely in pockets should be hoisted with a hand line. 6. Avoid climbing on a ladder in a high wind.

Ladders should always be kept in good repair. It is never desirable to use make-shifts such as chairs, boxes or tables, as severe injury and even death can result from falls.

came the slogan of the State Highway Patrol today, as tins of red paint became standard equipment for non-commissioned officers' patrol cars.

Beginning today, 3 foot high red numerals in red circles will be stenciled on the highways of the State at the scene of each fatal accident. The circled numerals

Do You Want To Cut Your Federal Taxes?

Road To The Poorhouse

America's most popular toy this year is called the "crasher truck." It is a mechanical gadget which falls apart when it hits anything. Faced with expenses that may hit \$52 billion dollars during 1950, our government could fall apart like the crasher truck unless you, as a citizen, apply the brake.

Three years ago, Congress created a bi-partisan, twelve-man Commission to study the waste and duplication of effort in the agencies and bureaus in the Executive Branch of the Federal Government. This Commission, approved by President Truman and headed by former President Hoover, has turned in a report which would cut our tax bill three to four billion dollars annually -- if the recommendations are enacted into law. This means that it would save you one dollar out of every ten you pay in taxes. Whether you realize it or not, every family in the United States pays yearly, on the average, in direct and hidden taxes, more than \$1,000.00 each to support the Federal Government alone.

Congress has already authorized \$15,000,000,000 for construction of major projects, and another \$30,000,000,000 authorization is planned.

The Commission has recommended, (1) Creation of an impartial Board of Analysis for engineering and architectural projects, (2) Long-range planning of projects to meet the ebb and flow of economic cycles, and (3) Coordination of all public works. Such prudence might well save the nation from collapse.

If you think this march down the road to the poorhouse should be halted, wire your Congressman. Write to the Citizens Committee for Reorganization of the Executive Branch of the Government, 1421 Chestnut Street, Philadelphia 2, Pennsylvania, for further information. Tell your friends and neighbors! You must act before it is too late!

will indicate the number of persons killed in the accident. If another accident occurs at the same point the numeral will be changed to include the total fatalities at that point.

Where a fatal accident occurs on a curve, the red numeral will be placed on the approach to the curve, with an arrow pointing to the accident site.

The plan was devised in line with the continuing program of the Department of Motor Vehicles to cut down on highway accidents.

"Too often, after the remains of a highway mishap are cleared away, the tragedy is forgotten by the motoring public," Col. C. R. Tolar, commander of the Patrol, stated. "This out-of-sight, out-of-mind attitude is what we must combat. We hope that the red numerals and circles will serve as a reminder to careless motorists that blood is being spilled daily on our highways and that it's up to them to help us 'keep the red off the road.'"

Some plan for marking sites of fatal accidents on dirt roads will be worked out later, Col. Tolar said.

Boy Improved

Mr. and Mrs. H. T. Ray visited their son, Horace, at the Virginia Baptist Hospital in Lynchburg, where he has been for about a week ill with pneumonia. It was reported that his condition was much improved.

Man Dies Of Heart Ailment

Rowland Price Williamson 39, died at his home in Faison Monday afternoon of a heart ailment. His health had been bad for the past two years. Mr. Williamson has made his home in Faison for the past 12 years. Prior to that he lived at Seven Springs. He was a member of the Woodmen of the World and of the Methodist Church. He has operated a cafe in Faison for the past year and before that was employed by the town.

He is survived by his wife, the former Annie Barwick of the North Creek church section of Wayne County, and the following sons, Bobby Eugene, Alton Albro and Ralph Lenwood; his father, John E. Williamson, and stepmother, Mrs. Bettie Wells Williamson; one sister, Edna Louise Williamson of

Faison; two brothers, Eden McCoy and Russell Lee Williamson of Pacific Grove, Calif.

Funeral services were held at the Faison Methodist church on Wednesday at 2 p.m. with the Rev. Dennis Kinlaw in charge, assisted by Rev. F. F. Warren. Burial was in the Wayne Chapel Methodist church cemetery at Dudley.

CAMELS AGREE WITH MY THROAT!

TELEPHONE OPERATOR Mrs. Ethel James: "My throat gets a workout all day long. I made the 30-Day Mildness Test and changed to Camels. They agree with my throat -- they taste so good!"

RADIO ANNOUNCER George Ansbrosio: "Throat irritation certainly doesn't go in my job. I smoke only Camels. They're right for my throat -- cool and mild. And Camels have the flavor!"

SALES DEMONSTRATOR Madeline Ottaviano: "I talk to thousands of shop girls. When I smoke, I have to think of my throat. Camel is my cigarette -- so mild!"

YES, CAMELS ARE SO MILD that in a coast-to-coast test of hundreds of men and women who smoked Camels and only Camels for 30 days, noted throat specialists, making weekly examinations, reported

Not one single case of throat irritation due to smoking CAMELS

HIGH PRODUCING flocks that return big profits do not just happen. They are the result of good breeding, good feeding and good care.

You choose baby chicks from high egg producing flocks to have the best assurance that the chicks will inherit the ability to lay heavily and steadily. But whether they produce to the limit of their ability will be determined by how they are brought into maturity.

The feed and care chicks get is important, particularly during the first few weeks of life, for generally, the payoff in the henhouse starts in the brooder house.

You see, to grow fast, develop strong bones and rugged bodies, baby chicks require a highly nourishing feed, which can be easily digested and assimilated and changed into bone, blood, flesh and feathers.

The NEW, IMPROVED Gold Strap

Starting Mash with APF

is designed to meet the requirements of baby chicks. It contains an abundant supply of the essential vitamins, minerals and proteins needed for fast, sound growth, early feathering and better livability. It gives that extra push that helps pullets to maturity earlier, with plenty of extra stamina and vigor to produce to the limit of their inherited abilities.

So, to get more returns from your henhouse next fall, give your chicks a good start this spring.

Over 50 ingredients to insure an abundance of essential vitamins and minerals required for maximum results!

More pounds of chicken in each bag of this new, improved feed means lower production costs.
