

Duplin Shrine Club Meets In Wallace

The Duplin Shrine Club celebrated Ladies Night Friday evening at the Wallace Community Building with more than 80 present. Shriners brought their wives and friends to an evening of fried chicken, humorous speeches, and dancing.

President John R. Croom of Magnolia, who was recently appointed ambassador to the potentate of the Oasis of New Bern, Sudan Temple, presided at the gathering. The president and vice-president, Dr. H. W. Colwell of Wallace, got the meeting underway with brief remarks before introducing Shriners D. Johnson. Noble Johnson discussed the shrine's financial obligations to certain institutions and of Shrine activities in general. He urged Shriners to take an active part in securing new members and make the Duplin Shrine Club one of the most outstanding in this section. The speaker illustrated his talk with a number of personal stories which shined the lighter side of club activities. Following the dinner, Shrine officers held a brief business meeting at which it was decided to hold

their next meeting June 22 at Maxwell's Mill. A dance from 9 p.m. until midnight concluded the evening's activities. Music was furnished by Skeeter Williams' band. It was announced that the Rocky Mount Shrine Club and Sudan Temple will hold a pre-ceremonial dance Wednesday, May 17, at Planters Warehouse. Shep Fields and his orchestra will furnish the music.

In addition to the president and vice-president, other officers at the meeting were Secretary Earl Whitaker and Treasurer Grady Mercer.

BOLL WEEVIL THREAT WORST IN 25 YEARS

The most serious boll weevil threat in 25 years faces North Carolina cotton farmers this year and State College is urging farmers to get ready to wage an all-out fight against this pest. Over-wintering weevils in trash show the number to be three times as large as at the same time last year. The State's loss from weevil damage in 1949 is estimated at \$25,000,000.

Peanut growers are advised not to plant peanuts on cotton land treated with BHC-DDT, as there is some indication that peanuts will pick up the flavor of BHC from the soil and be unfit for use. Toxaphene and chlordane are specially recommended for weevil control in peanut areas.

FEE GREENS TO STOP TURKEY CANNIBALISM

Cannibalism is a vicious habit that may develop in growing turkeys of any age, and once started can cause considerable loss and trouble.

Cannibalism is usually caused by poor management, which includes crowding, use of too few feeders and waterers, improper diet, or failure to teach poult to eat and drink.

The best way to stop cannibalism seems to be to feed fresh cabbage heads or other greens to the birds in order to keep them active and out of mischief. The greens should be kept before them until the trouble has stopped, usually from a few days to a week.

For birds more than 8 weeks old, oats is recommended as a feed to reduce cannibalism.

ROSE HILL, N. C.

Let's All Vote

Friday, May 27th is the Democratic Primary election. Every Democratic voter in Duplin County should vote. Each of you want a voice in your government and the best way you can have a voice is to go to the polls and cast your vote for the man you think best qualified to hold office.

I want to be your Senator. Naturally I want your vote but I feel that the choice of a candidate is of lesser importance than the fact that you decide to go and vote. If you feel you had rather vote for one of my opponents than for me, I urge you to go and cast that vote. If the majority of the people of Duplin feel that someone else is better qualified to represent them in the State Senate than I am then I want to see that man elected and will give him all the support that I can. If the majority feel that I can qualify, then I think that my opponents have the same feeling that I have. Our county must be put above the individual.
