## A GOOD NAME

IS A PRICELESS POSSESSION

Without the respect that goes with a good name no business can long endure. We all know the importance of a good name. In personal life it is the hall-mark of respect. In the life of a business it is a matter of necessity.

Respect for a good name must be earned. On the business level it means good jobs and wages for people—taxes for the county and state—integrity in all business dealings—observance of the laws.

The beer industry in North Carolina stands for all these things and by co-operating with the newly organized Malt Beverage Division of the ABC Board is working to see that your beer retailer conducts his business in the best interests of the public.

This industry is constantly working to deserve a good name and a respected position in your community. Good citizenship and tolerance are helping us toward our goal.
