Farming today requires great skill on the part of the farmer. Not only must he know soils, fertilizers, and seeds, but he must be an expert mechanic to operate all types of farm machinery. In other words, a farmer works hard for his money and in a highly speculative business. He should make that money work for him—in a non-speculative and safe investment. U. S. Savings Bonds, guaranteed by our government, is a crop that NEVER fails. It's always ready when needed. Savings Bonds are a good place for this year's crop money. They grow, rain or shine.
