

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B₁, B₂, Nicotin and Iron. Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at night. I could not keep food on my stomachs, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at night. Thanks to HADACOL, I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

SPORTS AFIELD
Hunters are after exasperated because deer can hear them, but they can't hear the deer. I know a man who did something about it — Red Leekley.
A partially deaf man met Red on the street and unwittingly put Red on the right track. He wore a hearing aid. What would a sound booster do if he hooked it up to his normal ears?
The idea was exciting. He built a blind in a section of the woods which he knew was well stocked with deer and other wildlife. The he began listening to nature thru his hearing aid.
The first blasts were startling. Red didn't know whether to run, duck, or sit tight and pray. There were creakings and groanings, rustling, a sound of distant feet running at full speed. There was a swishing and a clack, clack, clack. The clack he eventually identi-
