

Miss Myrtle Rose Sutton is the daughter of Mr. and Mrs. Percy J. Sutton of Faison, who announces her engagement to William DeWitt King, son of Mr. Will King and the late Mrs. Ols B. King. The wedding will take place in the late summer.

Orphanage Sells Outstanding Sire For Local Breeders

Coastal Cooperative Breeders Association announced today that the Thompson Orphanage of Charlotte, has sold their outstanding proved Jersey sire, Biltmore Standard-Mark, R. J. 462961 to the Southeastern Artificial Breeders Association, suppliers of proved sire semen to county breeding organizations in the Southeastern States.

"Mark" is 6 1/2 years old, and out of a cow by name of Mark's Farm Ophelia. This fine cow is now on test at Biltmore Farms, at 14 years of age, and during 300 days, she produced 16,904 lbs. of milk and 745 lbs. of butterfat. If nothing happens to her she is expected to make a world record during this lactation for a 14 year-old-cow.

bull. He has been officially classified for dairy type as "very good," with a score of 89.2. His five daughters that proved him are on the farm of Russell Oxford at Taylorsville with two others on the Orphanage farm. These daughters are producing well, indeed. Based on the proof shown, 6 of the 7 daughters increased milk, 4 of the 7 increased test, and 5 of them increased total butterfat. "Mark" proves that he has the ability to transmit increased production to his offspring. His American Index on 7 pair daughter-dam comparison is 9,804 lbs. milk, 5.14% test, and 548 lbs. butterfat, an increase of 608 lbs. of milk and 28 lbs. of butterfat by his daughters over his dams.

Coastal Cooperative Breeders Association has a representative on the Bull Committee of the Southeastern Artificial Breeding Association, an American Breeders Service. This Committee selects and approves the purchase of the High Index Proved bulls of the American Breeders Service studs by majority vote, affording the local organizations the freedom of choice as to the caliber of proved sires

they want for their customers. The local organization is furnishing this prove sire service in the county at the regular insemination charge.

College Grads Offered Officer Training In Marines

For the first time since World War II, the Marine Corps is now accepting college graduates of accredited North Carolina colleges or universities -- without prior military experience -- for officer candidate training, according to an announcement by Capt. M. D. Smith, Jr., director of Marine recruiting for the state.

Qualified graduates, or seniors in accredited North Carolina colleges, who will receive a baccalaureate degree this spring -- other than in medicine, dentistry, or theology -- and who will be less than 27 years of age on July 1, are eligible, Capt. Smith said.

Accepted candidates will be enlisted in the Marine Corps Reserve and sent to an intensive 10-week training course at Parris Island, S. C., this spring and summer. Successful graduates will be commissioned Second Lieutenants in the Marine Corps Reserve and sent to the Marine Corps Schools at Quantico, Va., for a comprehensive five months basic officers' course.

Candidates who fail to qualify for a commission will be given the option of discharge from the Marine Corps Reserve or assignment to active duty in enlisted status.

A limited number of graduates of this Officer Candidate course may be offered commissions as career Marines. Complete information about the new program may be obtained by writing to the Commandant of the Marine Corps in Washington, D. C., according to Capt. Smith.

Earl Rackley Dies Of Heart Attack

Earl C. Rackley, 39, died suddenly from a heart attack at his home near Chinquapin at 7 p.m. Sunday. Funeral services were held from the graveside at Sharon Baptist Church Tuesday at 11 a.m. with Rev. N. E. Gresham in charge.

State College Answers Timely Farm Questions

Q. Please tell something about the new type grain harvester which windrows the grain and allows it to dry before threshing?

A. With the new machine, the windrowed grain, after drying, is picked up with a regular forage harvester, chopped, and blown into wagons. The self-unloading wagons carry the chopped grain and straw to the thresher.

Main advantage of the new method is that it results in better quality grain because the moisture content is lower. Another advantage is that all of the straw ends up in one stack.

At State College, agricultural

engineers say the new harvester probably won't be used widely in North Carolina. One reason for this they point out, is that there's too great a chance of rain catching the grain in the windrow. Also the dual operation of cutting and threshing probably would take too much labor.

State College specialists say the best method of harvesting grain here is to use an ordinary combine and dry the grain artificially. A windrow attachment on the combine makes it possible to recover the straw with a pickup baler.

State College Hints To Home Makers

To invite your friends to any informal get-together, just use the phone. Here are some tips to give you a reputation for telephone tact, whether you're on the "sending" or "receiving" end of a call:

When you answer the phone say "hello," rather than "The Jones residence."

Talk softly, yet loudly enough to be heard distinctly. Avoid phoning at meal hours, early in the morning and late at night.

When you make a call, give the other person time to answer. The

phone company suggests waiting 10 rings.

If you have more than a short message, ask "Do you have time to chat a while?" If someone phones you to chat at meal time or when you have company, ask if you may call back later -- maybe the next day will be convenient. If you call a friend who isn't in but someone else answers, give your name and say you'll call again. You may leave a message unless you were going to ask a favor.

Don't start a conversation with "Guess who this is?" Never begin an invitation by saying, "What are you doing Saturday night?" Instead tell what's up and ask your friend if he or she can come.

When you do the calling, it's up to you to say good-bye. For friendship's sake, put the receiver down gently. A crash is hard on the ears.

New DODGE "Job-Rated" Trucks

The trucks that do the most for you!

More powerful than ever! Dodge now offers you the most powerful "Job-Rated" trucks in Dodge history! Eight engines--94 to 154 horsepower--with power increases as high as 20%!

You get the right power for your job... in the finest performing trucks that ever carried the Dodge name! Yet these new Dodge "Job-Rated" Trucks are priced with the lowest!

NEW! Smarter styling! New beauty combined with massive, rugged appearance. New hood line for better road visibility. Roomy new cab interiors in contrasting colors--new comfort with redesigned seats.

NEW! Easier handling! Shorter turning diameters than ever before--for even greater maneuverability! More convenient steering wheel angle for greater driving comfort. New worm-and-roller steering gears for easier steering--plus all the ease-of-handling features that made Dodge "The Choice of Champions" in the 1950 National Truck Roadtest!

NEW! Extra-quiet brakes! Another Dodge engineering first! New, molded, tapered Cyclobond brake linings contact brake drums with smoother, more even action--practically eliminating brake squeal. Less tendency of brakes to "grab"--and lining life is greatly extended. Standard on trucks 1 1/2-ton and up, except for air brake models.

More than 50 brand-new features including...

- NEW SMOOTHER RIDE with new "Oriflow" shock absorbers; standard on 1/2, 3/4, and 1-ton models.
- NEW EASIER LOADING with lower ground-to-floor height on all models through 2 tons.
- NEW EASIER BAD-WEATHER STARTING with new moisture-proof ignition and high-torque starting motor.
- NEW MORE ECONOMICAL PERFORMANCE with higher compression ratio--on all models through 1 ton.
- NEW EASIER-TO-READ INSTRUMENTS--now grouped in a cluster placed in front of the driver.
- NEW TWIN CARBURETION AND EXHAUST SYSTEM for greater power with economy--available on all high-tonnage models.
- NEW SMOOTHER ENGINE IDLING with "hotter" spark plugs; on all models through 1 ton.

A model to fit your job!

ANOTHER DODGE EXCLUSIVE! gyrol Fluid Drive now available on 1/2, 3/4, and 1-ton models.

Come in to see the new DODGE "Job-Rated" TRUCKS on display Saturday, February 10
