More than 20 ordained ministers will participate during the three day program. Much instruction will be given and some will explain how to conduct home Bible studies, others showing how they should apply the Bible knowledge gained by putting it into practice in their every day lives. Still others will show how the Bible prophecies are being fulfilled by current world events. The Assembly will greatly aid ministers of Jehovah in Eastern Carolina in promoting their unsectarian education to all people of good will in the requirements for everlasting life in the righteous New World now at hand.

Mr. N. M. Downie, an ordained minister from Brooklyn, N. Y., will be the principal speaker. Cochran also from Magnolia, will direct a 15-minute Song Service and be chairman of a variety of experiences to be given by several ministers of Jehovah's witnesses. FALSE LIGHTNING

CONTINUED FROM FRONT
on the eastern edge of town, which is elevated just enough to look over the tree tops and the downtown section, we were awakened by a popping of our gas furnace. Almost with the seconds it would pop on and off. We looked out the window towards the South and saw what seemed to be unusually frequent flashes of lightning. As the light flashed the sky from that direction appeared jet black. Going across the house to the western side we looked out over town towards the court house. The sky would light up with a flash, a brilliant glow one second and the next it would be blurring pink. Bright, low, flashy, flickering, bright, dim, etc. We turned the house lights on and as the light would flash the lights would almost dim out. Yes, as you expect, our thoughts flashed to the atomic bomb. This was a few days after the last atomic bomb explosions in the Southwest. It wasn't exactly a comfortable feeling yet we reasoned it could not be that or more than just lightning would be flashing.

We called the telephone operator in Warsaw. She saw no such goings on in the sky there. After thinking a little more on the subject we decided to call Ralph Applewhite, Tide Water's trouble shooter in Warsaw. Ralph eased our nerves very quickly when he told us it must be two high voltage power lines coming in contact with each other. He said a Company truck was already on the way as other Kenansvillites in town had been awakened by the same lightning and had called him before we did. We then jumped into our car and drove towards the court house. As we approached the down town section we saw the last flash through the trees as the main switch in Warsaw was pulled. Two high power lines in front of the Baptist church here had hit together, burned apart and fell to the ground sending arcs of fire and light into the sky.

The next day, some of the fellows who went up town to see what was going on, said they got very little sleep the rest of the night following the two hour excitement. However, we were fortunate to hit the bed and begin snoring again in a short time.

DEFERMENT

CONTINUED FROM FRONT
File within ten days after Notice of Classification is mailed, a request for personal appearance before the Board, if desired. Such a request will be granted if filed within ten days, but only one ap-

pearance will be allowed unless desired, give to the local board notice of appeal in writing within ten days after the date of mailing of the Notice of Classification. This applies to the notice mailed after either the original classification or the notice issued after personal appearance before the Board.

Mr. Outlaw pointed out that observance of these simple rules would give everyone assurance that the local board was fully informed of the facts which might have a bearing upon the registrant's classification. He added that persons who wish to discuss a case with the Board should request an appearance at the proper time and not attempt to discuss it with individual Board Members outside of the Local Board Office. He pointed out that such practice would save time and that the interested parties could then be sure that all of the Board Members had complete knowledge of the facts which they wished to present. He stated that the Members of the Board are doing their best to determine the proper classification of each registrant and that they earnestly request the cooperation of the public.
