Big, EXTRA PROFITS this year from EVERY DOLLAR'S WORTH of NATURAL CHILEAN NITRATE of SODA

HERE'S WHY: Nitrogen content - all nitrate nitrogen... fast-acting... completely available... the only natural nitrate in the world.

Sodium content - contains 26% sodium (equivalent to 35% sodium oxide)... sodium is essential to maximum yields... substitutes for potassium, where lacking, and makes soil phosphate more available... helps "sweeten" the soil.

Other plant foods - natural traces of iodine, manganese, potassium, magnesium, boron, calcium, iron, sulphur, copper and zinc.

Uncle Natchel says "Look for the bulldog on the bag. It means natchel sods in free-flowing pellet form. Used now for over one hundred years."

300 lbs. of Chilean Nitrate increased yields of oats 35-40 bu. per acre. Dollar return: almost 4 to 1. Chilean Nitrate also improves the feeding quality and the protein content of forage crops.

200 to 300 lbs. of Chilean Nitrate produced 150 to 200 pounds more lint cotton per acre. Dollar return: about 10 to 1. You can't afford not to invest in natural soda this year!

300 lbs. of Chilean Nitrate increased yields of corn about 20 bushels per acre. Dollar return: almost 4 to 1. Chilean Nitrate means maximum yields for maximum profits!

Hot Cross Buns Add Spicy Flavor to Lenten Meals!

"One-a-penny, two-a-penny—hot cross buns; if your daughters don't like 'em, give 'em to your sons." So goes the old rhyme. But today there's no doubt about who likes these Lenten favorites.

Especially popular with daughters, sons, and all the family are Jane Parker Hot Cross Buns. They're made with a smooth blend of spices... filled with plump raisins, tangy citrus tidbits, and topped with crosses of mowzy icing.

For a 'specially delicious treat at tea time, snack-time or mealtime, just heat 'em slightly before serving. This brings out all the full, oven-fresh flavor of these traditional buns, fresh daily during Lent at A&P.
