Kenansville News

Mrs. Guthrie Party Honoree

On Thursday evening Mrs. Vance B. Gavin entertained her bridge club, an extra table of bridge and two tables of canasta, honoring Mrs. C. B. Guthrie, Jr., a recent bride. Wedding bell tangles seated the guests and arrangements of roses, glads and irises were used in the living room and dining room where the tables were in play High score in bridge for club members was awarded to Mrs. L. F. Weeks, and

Try this Tempting Salad... It Tastes as Good as it Looks!

Sparkling jellied salad ring in cool shades of green. A delightful blend of flavors.

Dress your salads in the best of taste with fresh-as-a-daisy Ann Page Mayonnaise. It's made of fine salad oil smoothly blended with eggs, mild vinegar, and pure lemon juice. Ann Page Mayonnaise is sold only at A&P.

LIME SALAD RING: Pour 1 1/2 cups hot water on 1 pkg. Ann Page Sparkle Gelatin, Lime flavor. Stir until dissolved. Add dash of salt, 3 tbsps. Ann Page Vinegar, 1 cup chopped celery, 1/2 cup chopped stuffed olives. Pour half into ring mold. Chill until firm. Stir 1 cup chopped cucumber, 1/2 cup Ann Page Mayonnaise into remaining mixture; pour onto firm gelatin. When firm unroll on lettuce. Garnish with radishes. 5 servings.

Among ducks and other waterfowl within a wide radius of the village of Delta in Manitoba, the chief topic of conversation and speculation these days probably is "What are they going to do to us next?"

A full list of exactly what is happening to the waterfowl around Delta would make terrifying reading for ducks, if ducks could read. A duck isn't safe from human beings there from the time it is an egg, although nothing serious ever happens and from the suffering by the waterfowl population may come information leading to the eventual restoration of ducks over their former entire breeding range in the United States as well as Canada. Therefore this obscure spot in Canada could very well turn out to be the most important on the continent for duck hunters.

It's the indignities in the meantime, though, that hurt the ducks' feelings, and often do start with the egg. How would you feel if you were an egg taken from its mother, slip-fallen by a hypodermic needle and hatched, into gaudy duckling colored like nothing ever seen in nature?

Not content with watching them all day, they talk about ducks

could be called a clearinghouse for knowledge.

Working independently and yet together is a permanent staff, the U.S. Fish and Wildlife Service, the Canadian Wildlife Service, the Manitoba Game and Fisheries Branch, specialist from the various American and Canadian universities, university students and post-graduate workers and a sprinkling of visiting biologist.

Bill Wolf just returned from up there and reports that the know-how, but like most such projects which are extremely useful in safeguarding the future of wildlife, work is handicapped by lack of dollars. That situation is not unusual in wildlife management circles.

Not content with watching them all day, they talk about ducks

around the dinner table in the evening or also they hold seminars in the main hall.

A duck at Delta has no privacy at all.

"They" are the men who use the Delta Waterfowl Research Station as their base of operation for studies right on the prairie breeding grounds to find out what makes ducks tick.

The station was started by James F. Bell, founder of General Mills. Later the Wildlife Management Institute joined in a cooperative program. Now the Delta Station is used by many specialists doing many different kinds of research, but with all correlating and sharing their information. The Station

you'll graduate with fashion honors in DIAMOND PANE PIQUE 895 TRUDY HALL JR.

Greet the great day with a dress worthy of the occasion. Choose Trudy's crisp pique with lines that make your figure divine, and sentimental little hearts for a trim that is definitely different.

America's Lowest Priced Eight FORD V-8

You can pay more but you can't buy better!

"It's the type of engine powering America's finest cars!"
"It certainly has fine car beauty!"
"Ford's built over 8 1/2 million V-8's!"

● One by one, America's costliest cars are switching to V-8's. Their makers are learning that this type of engine just can't be beat for get-up-and-go and fuel savings. But why pay more for a V-8 when Ford offers you one of the finest for hundreds less than most sixes? And you benefit from Ford's 18 years experience in building V-8's.

A "Test Drive" will show you that power isn't the only reason why owners are convinced that you can't buy better than Ford. You'll experience the safe, smooth steps of Ford's Double-Seal King-Size Brakes. You'll feel the comfort of Ford's Automatic Posture Control. And you'll like Ford's quick, easy Key-Turn Starting.

Advanced AUTOMATIC MILEAGE MARKER
With all their power and zip, Ford's V-8 and 24 engines offer power-saving savings. Ford's Automatic Mileage Marker registers the last corner of power out of every drop of gas by recording being in fuel shortage.

Now AUTOMATIC RIDE CONTROL
The road you see may be rutted... but the road you feel is smooth. For, with Ford's new Automatic Ride Control, every spring, suspension and shock absorber action is continuously self-adjusting to changes in road conditions.

New FORDOMATIC DRIVE
Ford's new FORDOMATIC Drive is the only drive in the world that gives you the ease of a car with a steering wheel.

Come in and "Test Drive" the '51 FORD
