

The following items appeared in the Daily Record, Thursday, October 12, 1916.

Prof. M. H. Woolen also made a strong talk on the same subject, urging the necessity of consecrated teachers and community citizenship, especially in the rural districts.

LOWER YOUR HAULING COSTS...

switch to DODGE "Job-Rated" TRUCKS

SAVE with a high-compression engine — When you switch to Dodge "Job-Rated" trucks, you get flashing performance with top economy — made possible by powerful engines with high compression ratio. For example, Dodge "Job-Rated" 3 1/2, 4 1/2, and 1-ton pickups, and trucks give you new, higher 7.0 to 1 compression ratio.

SAVE with a truck that's "Job-Rated" — A "Job-Rated" truck is engineered at the factory to fit a specific job... to save you money. Every unit that SUPPORTS the load — frame, axles, springs, wheels, tires and others — is engineered right to provide the strength and capacity needed. Every unit that MOVES the load — engine, clutch, transmission, propeller shaft, rear axle and others — is engineered right to meet a particular operating condition.

SAVE with lower upkeep costs — Satisfied owners agree that when you buy a Dodge "Job-Rated" truck, you get years and years of low-cost hauling. You enjoy the money-saving advantages of 4-rim wheels with chrome-plated top rim and exhaust valve seat inserts — plus new moistureproof ignition and new 45-ampere generator.

SAVE with bigger payloads — Ask any owner, and he'll tell you that payload goes up and costs go down when you switch to Dodge. You get balanced weight distribution, which permits you to haul bigger payloads. And to haul at low cost, you have the right engine for plenty of power.

SAVE with all these proved advantages — In a Dodge "Job-Rated" truck you get all these proved dependability features: Light-weight pistons, two fuel filters, heavy-duty radiator, twin carburetor and exhaust system on high-tonnage models, Cycle-bond brake lining, and others.

On the Republican side, Taft leads, but he isn't in by a long shot. The Sena or rom Ohio occupies a curious position. All concede that he is one of the ablest men in the Senate. He probably knows more about the complex workings of the government than anyone in public life today. He is thorough and conscientious and at times comes close to brilliance. He has organized and led the President's opposition, and he has more to say about GOP politics than anyone else. Yet, even among his friends and admirers, there is a feeling that Taft could not win — that, from the vote-getting standpoint, he might be a weak candidate. This is the feeling that Taft must overcome if he is to be nominated. In the meantime, he has more contentment with his pocket than any other Republican possibility. It has been said he is General MacArthur's choice. If that is so, he has gained an important asset.

Most curious of all is the Eisenhower situation. The General's prestige is enormous, here and abroad. He has a record which is almost beyond criticism. He has a warm and attractive personality, and little of the austerity that is generally associated with top military men. But no one knows what his views are on many vital subjects. The general opinion is that he is a strong internationalist in foreign policy, and that he tends to a relatively conservative stand on domestic policy.

The polls indicate that Mr. Truman's popularity is at a very low ebb. They also show General Eisenhower at the top in public esteem. But it is not likely that Mr. Truman puts much stock in polls after the 1948 miracle.

A few think that Mr. Truman may decide to volunteer for a second term out for Eisenhower.
