### Why Is the Church?

Lesson for September 9, 1951

WHAT use is the church? What difference would it make if it were disbanded?

A woman bought a vacuum cleaner on trial, but after using it a while she decided it wasn't any better than an old-fashioned carpet-sweeper and she sent for the man to take it away. When he came around, he discovered that she really did not know how to use the thing. All the attachments were still in the box, she had never found out what they were good for and so she never realized how useful a "vac" can be.

Dr. Foreman

Tell the Church the main and most important feature of the church is that it is a fellowship. This should be far more, far deeper, than a mere label.

One rarely-used function of the church was suggested by Jesus. In a quarrel, he said, the first thing to do is to settle it between yourselves. If that will not do, then take a few people with you and see if a small group can reach agreement. If not then "tell the church."

Probably the average congregation today, as a whole, would be a poor judge of quarrels. But suppose some church tried the experiment of forming a kind of consultation-group, made up of the wisest and most Christian persons in it; and suppose members of the church who had differences which would ordinarily be taken into court, were encouraged to consult those counselors for help—wouldn't some quarrels, that now reach the courts, never get that far?

### Common Treasury

SOME weeks ago it was suggested here that in some communities the church sees to it that no member of the church goes without a job. It is also a fact that in some congregations either a committee of the officers, or the minister, is entrusted with a fund, sometimes called the Deacons' Fund and sometimes the Emergency Fund, to be used in taking care of real financial emergencies, for the benefit of the members.

Sometimes it is used as a revolving loan fund, sometimes as outright gifts. No detailed accounting is made, because it is important that no publicity be given to the needy cases; hence those who administer the funds have to be persons who can be fully trusted.

The "needy cases" may not be charity cases in the usual sense. The point is that a church can be a fellowship so close that a person in physical or financial need would think of it as a source of help just as quickly as he would think of his own family. It is his family.

### Making Love Real

THE fact is, if there had not been real fellowship in the church all these centuries, it would not have lasted as it has. No outfit can run on and on for centuries if all it does is to provide jobs for a few jobholders.

No, there has been real family fellowship in the church. It does not always come out in official actions of church boards, but the thing is there. Preschers talk about love, and Sunday school lessons mention it. But this is not all. There are enough persons in the church making love real, (see Moffatt's translation of I John 3:18), to more than justify the church's existence.

A poor woman who was in the grip of the drink habit had a Christian woman friend. This friend said to her, "When you feel the craving coming on, even if it's in the middle of the night, call me and I'll come right down and we'll fight it through and pray it through together."

That was what did it. Not the sermons, not the books or temptance, but the fellowship of a woman who would get up in the middle of the night to help her friend through a desperate struggle.

Happy is the person who finds a church where there are people like that. For that is what Christian fellowship is: making the other person's cause and troubles your own.

TOBACCO GROWERS!  
Check NOW for  
ROOT KNOT DAMAGE  
It's easy to find out if nematodes cut into your 1951 profits. Pull up a few roots in an area that didn't pay so well this year. Look for stunted roots with knots and starved-off feeder roots. If you find roots like that, there are damaging nematodes in your soil and you should fumigate with D-D before the next crop is planted.  
D-D\* KILLS NEMATODES!  
North Carolina Tobacco growers made profitable use of D-D this year. D-D is easy to use, economical and highly effective. Get rid of the soil pests that are choking your profits. Start with the seed bed! In North Carolina, nematodes are found even in virgin soil. Use D-D in seed beds this fall and in all infested fields next spring.
