ploneering is always in the blood of man. Not in every one's, to be sure; there always are contented stay-behinds; but also there always are the rest less souls, not content with what has been or is. How shall pioneering instincts have their way when all frontiers are closed?

Un-Traveling Pioneers

THE traveling pioneer has about had his day; what we now need

Such explorers are of various sorts. One is the mental ploneer, moving to new frontiers of the mind. These can be found breaking out new tralls in various

In science there are the men whose minds produced X-rays and plastics, the men and women who did the brainwork that lay behind the splitting of the atom; in government the men on the judge's bench, in lawyer's offices or in professors chairs, who have been and are still thinking out the undiscovered meanings of democracy; in education the men and women who have plo-neered in new ways of teaching such as Dr. Laubach, great scholar and missionary, who has led the way in teaching the "silent billion" to read and write; these are all pioneers of the mind. God send us

Moral Pioneers

WE need also pioneers of the moral life. "Time," says a line in a poem by J. R. Lowell which has made its way into most hymn-"makes ancient good un couth.

For instance: once upon a time, practically all Christian people sup-posed that slavery was not only a good thing, but that God had cor manded it for all time. Whitfield, a famous evangelist, said that what America needed for its development was more slaves imported from Africa, and more home-brewing of liquor. Today this sounds so ridiculous that it is hard to believe that Christian could have said it.

Time has made ancient good uncouth. Lut time alone will not do this. There must always be some moral pioneer, some one who will run the risk of becalled "bad" by going out in front of popular opinion.

Between Whitfield's time and ours there have been moral pioneers. notably a wu man on whose mind and heart God laid the message: Slavery is a wrong.

Pioneers of God

WE need also spiritual pioneers, persons who will move forward to new discoveries of God. For most persons, God is still an "undiscovered country"; and no man can discover God for another. though he may testify to his own discoveries. So in the realm of the spirit each must be his own pioneer; and some men and women, even from sickbeds, unable to walk as far as the door, have made great discoveries of God.

The man who is honored as a saint by three religions—Christianity, Judaism and Mohammedanism —Abraham, is sometimes known for the wrong thing. He may be thought of as a traveling pioneer because he moved several hundred miles during his lifetime. But he was not a pio-neer in the "old American" meaning of that word, for the Canaan to which he went was no unsettled wilderness but a well-populated civilized country, and no never owned the land he lived on.

Abraham's Lioneering was in the realm of the spirit. We know from Joshua 24:2 that even Abraham's father was an idolater; Abraham moved out from the pagan religion of his father and his people, to the dis-covery of the fine True God. No more important journey was ever taken.

The traveling of Abraham's feet was of little importance by com-parison. It was the traveling of Abraham's spirit that has most blessed us all.

tied as administratrix of the estate of J. H. Baker, deceased, lat of Duplin County, this is to notified persons having claims again again estate to present them to the undersigned on or before the 26th day of September, 1952, or this no

When a Wood Frog is resting quietly under a tree or near a puddle of water, it's almost impossible to see him. He's small, and the shades of brown on his back and sides make him seem to be part of the ground. The only mark on him that stands out is a black patch

rector of the Wildlife Commission, amounced today.

Included on the Commission's agenda will be a discussion of plans for a deer hunt on the Holly Shelter Wildlife Management Area in Pender county, a resolution by the Buggs Island Commission regarding the development of marginal lands and construction of sub im poundments on the Buggs Island Dam Project, and consideration of a proposal by the forestry sgent of the Atlantic Coastline Railroad to make pine stumps on wildlife lands available for sale as raw materials for processing in industrial chemical plants. The sale of pine stumps from the Holly Shelter and Sandhills Wildlife Management areas would provide additional income to the Commission for wildlife management, and utilize raw materials which would otherwise be entired by wasted.

The Federation represents more

ful jumper.
An unusual thing about his leaps is the way in which he lands. The National Wildlife Federation says that he can twist around while in the air. When he comes down he is facing the direction from which he came. This enables him there are on the enemy or to keep an eye on the enemy or listurbance which caused him to The Federation represents more than 100 wildlife clubs throughout the state, and delegates from these caus, together with Federation of icials, will discuss plans and ach

ages to get away by squirming his strong, slippery body. The lively Wood Frogs live in the woodlands of the northeastern The annual Federation meeting opens at 10:00 a. m. on October 8 with registration at headquarters in United States - from South Care lina and Arkansas, north to Cana da. In the winter, they hide under stones, stumps, logs, and thick piles of leaves and brush. Their long rest

ends early in spring, when the first sunshiney days bring them out. Not long afterward, the female frogs lay masses of eggs in the woodland pools. Each tiny cluster contains from a thousand to three thousand eggs. While these are being laid, the male croaks hoarsley,

ing laid, the male croaks noarsiey, as if to announce that their families are about to gain new members. It is the only time of year that they make much noise.

If it is a mild spring, and the water is warm, the eggs hatch in nine or ten days. But in cold water, they may wait as long as 24 days before turing into tiny black tad.

and which cause of action is set forth in the complaint filed in this The tadpoles stay in the water until summer, when they begin to grow the legs that will give them the shape of frogs. Soon they are ready to leave the water and join the thousands of Wood Frogs which are hopping about in the shady forests. There they spend much of that the said defendant will fur-ther take notice that she is re-quired to appear at the office of the Clerk of General County Court of Duplin County in Kenansville. North Carolina on the 1st day of Nov., 1951, and answer or demur-te the complaint filed in this actheir time hunting insects to eat. At the age of one year, he Wood Frog is an inch long. He gains about a third of an inch a year until, at four, his body is 2 1 4 inches in length. His legs are long and slen der, and his toes are pointed. He to the complaint filed in this ac tion, which has been duly filed in said office, on or before the 23 day of Nov., 1951, or the plaintiff will apply for the relief demanded in stays on dry ground most of the time, but the National Wildlife Fed eration says he is a good swimmer when he does venture into the

water.
Interesting information on other wildlife species can be obtained by writing to the National Wildlife Federation, Washington 10, D. C.
