Notice of Resale of Valuable Timber

in accordance with an order of the Superior Court issued November 1951.

'There Is a Tide'
Lesson for December 2, 1951

'There is a tide in the affairs of men, Which, taken at the flood, leads on to fortune; Omitted, all the voyage of their life Is bound in shallows and in miseries.'

SO Shakespeare said, and he was at least half right. Opportunity sometimes knocks twice; but don't count on it.

The Bible lesson for the week is a failure-story, not a success-story. It is the story of some persons who contracted the grasshopper complex, a mental disease that still attacks people today.

The story is from the wild days when the Israelites, now two years out from Egypt, were first knocking at the doors of the Promised Land. The Israelites were land-hungry, but the only land they wanted was what we now call Palestine and it was not theirs for the asking. They would have to fight for it, every foot of it. They all knew this, Moses knew it. There was no going back to Egypt and slavery. Nobody wanted to stay in the desert. The obvious thing was to go ahead into Palestine. But there were two questions filling the people's minds: (1) What kind of country is it, really? and (2) can we fight our way into it?

Investigating Committee
SO a committee of investigation was formed, of one man from each of the twelve tribes,—grown men, trusted leaders, by no means "boy scouts."

Don't think of these men as sneaking through Palestine from bush to bush, peeping out Indian fashion to see what they could see. They walked into Palestine, not unobserved but un molested. They spoke Egyptian, of course, and could easily pass as Egyptian traveling salesmen. They spent around six weeks in that country, visiting the cities, no doubt talking with the people.

In late summer they went back to the encampment on the edge of the desert, carrying with them some of the fruits of the land. Incidentally, these pictures showing bunches of grapes six feet long are a funny misunderstanding. Palestine has good grapes, but not quite that good! They carried the grapes on poles because that was the best way to keep them from being crushed.

At the big mass-meeting at the desert camp, the twelve made their report. On the facts, they were all unanimous. It was a wonderful country, "flowing with milk and honey," a great country for cattle and bees. Palestine did look marvelous to their desert-burned eyes. But on question number two there was a serious division: Can we fight our way in? Yes, said the majority of two. No, said the majority of ten.

Grasshopper Complex
THE majority put their reasons in a single revealing sentence: We were as grasshoppers in their sight, they said, and so we were in our sight.

Nowadays we call this state of mind the "inferiority complex"; our name is a new one for an old trouble. Think of yourself as a grasshopper, and grasshopper is what you shall be. Take yourself at other people's lowest estimate, and that is all you will be worth.

The trouble with the grasshopper complex is that it is catching. The majority report was wrong, as majority reports so often are. But the people believed them rather than the courageous pair who stood up to declare boldly, We can do it, with the help of God.

Well, what did God do about it? That is perhaps the saddest part of the story. He did nothing about it. He let the people impose their own sentence. Grasshoppers? Very well, so be it. Grasshoppers die, they never amount to anything, no one bothers to kill them, they just die. God was believed to strike men dead in anger, or command the earth to open and swallow up the wicked, or hurl lightning from the skies on his enemies. But he wasted no miracles on these self-selected grasshoppers. He only let them die. Ten, twenty, forty years... just drifting about in the wilderness, till they all died, and a new generation took their places.

Opportunity did not knock twice. There was a tide in these men's lives.

QUESTION: Will any new corn hybrids be available for use in 1952?
ANSWER: Yes. Five new hybrids were grown for seed this year and will be available for farm production in 1952. They are NC 29 and NC 31, both whites and NC 24, NC 36 and Dixie 82, all yellows.

All of these hybrids have given good yields in experimental tests. Seed will be available through regular channels in the areas to which the hybrids are adapted.

QUESTION: Can trees be arranged to make a home cooler in summer and warmer in winter?
ANSWER: Yes. John Harris, State College landscape specialist, suggests planting evergreens on the north, northeast, and northwest sides of the yard, with the tree line curving to divert cold wind away from the house. Tests show windbreaks reduce fuel cost up to 23 per cent. The same trees will guide summer breezes coming from the southwest in and around the house.

For protection from the summer sun plant trees that drop their leaves in winter on the south and west sides; in winter time the leaves will be off and you can get full benefit of the sun. But don't use evergreens to shade much of the house — they make the house too dark and cold in winter.

QUESTION: How should a milk cow be fed immediately after calving?
ANSWER: Dairy specialists at State College say a warm bran mash given just after calving will help to keep the digestive system functioning properly. Unless complications interfere, it is important to get the cow on full feed as soon after calving as is reasonably possible.

After the calving day, increase the grain gradually. Be careful not to ber 19, 1951. The undersigned commissioner will sell the timber on 200 acres of land as described in book 209 page 98 of the Duplin County Registry on Monday, December 10, 1951, at 12:00 noon on the Courthouse steps in Kenansville, North Carolina. Terms: 10 inch stump removal, cash on delivery of deed for 10 per cent deposit at sale for good faith. The resale will start at \$550.00 per Southmont Manufacturing Company. The bid will remain open for ten days following the sale.

This the 26th day of November, 1951.

NC Will Produce Over 2 Million Hogs This Year

North Carolina farmers will produce over two million hogs and pigs this year, according to a projected estimate of the U. S. Department of Agriculture, constituting an income of about \$90 million.

North Carolina produces about 1.7 per cent of the nation's total swine crop, which is expected to top 106 million head this year. Hogs bring in 4.2 per cent of the state's total farm income.

This year's huge hog crop is expected to be the nation's second largest on record. Probably an important factor in the current rise in hog production is the use of antibiotic feed supplements. Reports from farmers in this and other Southern states prove that amino acids fed in a aureomycin-vitamin B12 supplement, mortality is decreased, growth is more rapid and less feed is consumed up to sell-off time.

North Carolina's 1940 hog crop was only 2.7 per cent of the state's total farm income, while the 1930 crop brought 2.3 per cent of the total.

Step Up Speed Wage Adjustment Processing

RICHMOND, Va., Nov. 19 — A step toward speedier processing of petitions for wage increases or adjustments was taken a few days ago by the fourth Regional Wage Stabilization Board when it adopted a policy giving applicants with inadequate petitions no more than 30 days in which to furnish required additional data.

Failure to comply within 30 days with requests for additional and necessary material data will, according to the new policy cause incomplete petitions to be removed from the Board's active file. Heretofore insufficient petitions have retarded the Board's overall case processing and contributed to a backlog of more than 300 cases.

Dobson Chapel Personals

Rev. N. E. Gresham filled his regular appointment here Sunday night with good attendance. "WMS met at the church last Tuesday night with fair attendance. The program topic was, "Whither Asia?" Mrs. Felix Bostie, Mr. and Mrs. Melvin Bostie, and Miss Doris Bostie.

"Our Tracks Run All Over Duplin"

the great Sunday in Raleigh. Mr. C. C. Rouse of Wilson spent the weekend with his parents here. Mrs. C. C. Rouse, Jr. and daughter Cathy spent several days last week with her parents here. A small son of Mr. and Mrs. Willie Brock fell and broke his arm Saturday. We hope him a speedy recovery. Mrs. Wilbur Brock went to the hospital Sunday where she will undergo an operation. We hope she gets along fine. Mr. Rivers Rouse of Teachey and Mr. Roland Rouse of Charlotte visited and hunted in this section Monday.

Linen Shower For Polly Rouse

On Friday night, Misses Jesse Ruth and Sara Brown and Mary Lee Rouse honored Miss Polly Rouse, bride elect, with a linen shower. She received many nice and useful gifts. Miss Jesse Ruth Brown also a bride elect of the future was presented a piece of silver in her chosen pattern. After a number of games they were served open faced sandwiches, cookies and cakes.
