put **THE MAN WITH THE HOE** on wheels  
  
It has been said that a man with a hoe is the most expensive item on the farm. That is especially true with vegetables, melons, berries, fruits and other crops that require precision planting, cultivation and weeding.  
On the seat of a Model G Tractor, one man can eliminate a tremendous amount of hand work. He can place seed where you want it, to the smallest fraction of an inch. He can weed and cultivate gently, surely — right up to the row. He can handle up to six rows at a time.  
Model G implements mount in front under the tractor's open arch. Crop rows and tools are always in full view.  
Let one pair of hands on the wheel of the Model G replace many pairs on hand tools. Stop in for full information.
