Expansion to Cost CP&L \$22,500,000

Raleigh, Jan. 9.—Carolina Power & Light Company plans to spend \$22,500,000 to expand its power resources and to connect new customers this year, and if Tide Water Power Company is merged with Carolina, that figure will grow to \$27,000,000.

Such expenditures were approved here today when the board of directors met to adopt the construction budget for 1952.

Most of the money will go into three new steam units to increase the company's generating capacity. One of these is being installed at Goldsboro and another at Lumberton. The third has been ordered but its location has not been determined. Sites are being considered in the Tide Water area.

Louis V. Sutton, president of Carolina Power & Light Company, told directors that the company had spent \$77,000,000 in the post-war expansion during the six years since World War II. He estimated that additional construction with the next three years (1952-54 inclusive) will cost \$66,000,000 more, making the post-war expansion program total \$143,000,000. The latter figure includes expenditures that might be made in the Tide Water area.

Not only did more people receive electric services last year, but they used more electricity, according to a review of 1951 operations. Average annual consumption by residential customers ran to 3,000 kilowatt hours last year for the first time in the company's history.

Approximately 14,000 new customers were served, bringing the total to 274,000. Tide Water served 52,000 others, who may become CP&L customers this year.

The proposed merger has received approval from the North Carolina Utilities Commission, the South Carolina Public Service Commission, the Securities and Exchange Commission and from the directors of both companies. Proxies were mailed today to stockholders of both companies preparatory to stockholder meetings February 4 at which they are expected to approve the plan. Final approval then rests with the Federal Power Commission.

More customers and increased use of power since the company's sales to a new high of 2,735,000,000 kilowatt hours last year, or an increase of 18 per cent over the previous year.

To meet this increased demand, the company spent \$18,800,000 on new or expanded facilities during the calendar year. This included 1951 construction costs at the Goldsboro generating plant, the first unit of which went into operation last May.

Out of gross operating revenues the tax collector claimed the largest share. Federal, state, county and local taxes totaled \$9,063,000 compared with \$7,537,000 for 1950. The second largest sum went to payroll — or approximately \$6,000,000. The company's 30,000 stockholders got \$4,130,440.

Reviewing the power picture yesterday, Mr. Sutton told the company's directors that despite the extreme drought of last fall that Carolina Power & Light Company had been able to meet all its customers' requirements for electric power. In addition, he said, the company made over a quarter-billion kilowatt hours of energy available to neighboring industry outside its service area.

Mr. Sutton reported that the work of installing the new steam unit at the Quaker Neck plant near Goldsboro remains on schedule, which calls for its completion by next May.

Difficulty in obtaining structural steel, he noted, has delayed the new Lumberton unit but it is hoped that this unit will be ready for operation by early fall.

The two new units, fairly similar in capacity to the unit which began operating at Goldsboro last year, will be able to supply a billion kilowatt hours of electricity a year, if operated 85 per cent of the time.

o'clock. Mrs. Faison Smith was co-hostess. Miss Rachel Outlaw presided and called the meeting to order. Miss Pauline Outlaw Chaplain led the worship service, following the business period. Mrs. Leroy Simmons directed the program with Japan as the main topic, reports and discussions on the work of Universalism in Japan in previous years and the future outlook. Rev. L. C. Prater closed the meeting with prayer. A good attendance of members enjoyed a social hour while the hostess served refreshments.

Reports by the REA indicate that farmers are turning more and more to electric power for labor savings and for help in increasing farm production efficiency.

Personals

Mr. and Mrs. Lillian Maxwell and young son of Winston Salem spent the weekend with Mr. Maxwell's parents, Mr. and Mrs. H. E. Maxwell.

Messrs. George Turner and Jasper Tyndall attended a veterans meeting in Kinston Saturday night. Howard Smith of Camp Gordon, Ga., spent the weekend at his home.

In Raleigh Tuesday night to attend the State-Louisville basketball game included Chris Coombs, Jasper Tyndall, Aubrey Turner, Floyd Heath, Sr. and Floyd Heath, Jr.

Rev. N. P. Farrier and Mr. R. W. Wallace attended a meeting of Presbyterians held at the first Presbyterian church in Wilmington on Tuesday, Jan. 14, and Mrs. David K. Brooks and sons David, Billy and Kenneth of Ft. Bragg were weekend guests of Mr. and Mrs. H. D. Maxwell. Mrs. Brooks was the former Miss Victoria Gooding. Other guests in the Maxwell home on Sunday included Misses Annie and Nellie Grady of Kinston and Mr. and Mrs. Walter Godwin and their daughters, Billie and Lela K. of Wilmington.

Presby. Women Hold Meeting

A general meeting of the Presbyterian women of the church was held at the church Tuesday night. In the absence of the president, Mrs. E. M. Sills, Mrs. T. A. Turner presided.

Mrs. Turner also presented the program which was on world missions.

Mrs. Floyd Heath, Mrs. E. W. Grady and Mrs. Jones Smith are members of a nominating committee for the nomination of officers for the new year. Mrs. N. P. Farrier closed the meeting with prayer. Twelve members answered to the roll call.

Crop, Seed Groups Plan Annual Meet

The North Carolina Crop Improvement Association and the North Carolina Foundation Seed Producers, Inc., will hold their 1952 annual meetings at N. C. State College on January 25, beginning with registration at 9 a. m.

J. H. Hillon, dean of the State College School of Agriculture, will welcome the group. Richard T. Cotton, leader, stored plant products section, Bureau of Entomology and Plant Quarantine, U. S. Department of Agriculture, Manhattan, Kansas, will speak on "Practical Methods of Keeping Stored Grain Insects under Control, and New Developments."

George D. Jones, extension entomologist, will lead a discussion period following Cotton's talk. J. B. Cotner, grain marketing specialist, State Department of Agriculture, will speak on "Marketing North Carolina Grain Crops."

Speakers for the afternoon session will include O. W. Easley, Jr., agricultural engineer, Mississippi State College; R. W. McMillen, manager of the Foundation Seed Producers, Inc.; and R. W. Cummings, director of the North Carolina Experiment Station.

Easley will speak on "The How and Why of Correct Seed Processing." McMillen will report on new crop varieties being increased for growers of certified seed, and Cummings will give a summary of the day's discussions.

The Crop Improvement Association will hold its annual business meeting at 3:15 p. m., and the Foundation Seed Producers will meet at 3:45 p. m.

No seed exposition will be held in connection with this year's meeting.

R. Kiker of Polkton is president of the Foundation Seed Producers, and K. J. Shaw of Laurinburg is president of the Crop Improvement Association.

FARM FILLERS

The U. S. Department of Agriculture's leaflet on fruits and nuts, especially prepared for Southern farm families, has recently been revised. Free copies are available from the Office of Information, U. S. Department of Agriculture, Washington 25, D. C. Ask for Leaflet L-219.

State Ranks High In Scrap Campaign

A total of 17,190 tons of scrap metal were collected in North Carolina during the national farm scrap drive concluded recently, according to G. T. Scott, chairman of the State Agricultural Mobilization Committee.

Scott says a report by the U. S. Department of Agriculture shows that only seven other states exceeded this total.

Throughout the country, the amount of farm scrap collected was

Each morning the United States has an additional 7,000 persons to feed and clothe. This rate of increase has been going on for several years and is continuing. Also, per capita consumption of food is 13 per cent higher than the prewar average.

Small grain stands in Cabarrus County appear to be unusually good this season.

PINK HILL, N. C.

Miss Edwards Goes To Jacksonville

Miss Betty Edwards of Pink Hill has been employed as director of religious education at the first Presbyterian church in Jacksonville, N. C. Pastor of the church is the Rev. Carl B. Craig.

Miss Edwards, who is a daughter of Dr. and Mrs. H. A. Edwards of Pink Hill, is a 1951 graduate of Plonks School of Creative Arts, Asheville. She will take up her new duties in the near future.

Announce Births

Mr. and Mrs. Kermit Noble of Deep Run announce the birth of a daughter at Memorial General Hospital in Kinston on January 16. Mrs. Noble was the former Miss Weidon Goodson of Mt. Olive, R-2. She was formerly employed at Memorial General Hospital as a registered nurse.

Mr. and Mrs. J. D. Gladson of Pink Hill, R.F.D. have announced the birth of a daughter in a Kinston hospital January 16. Mrs. Gladson is the former Nancy Howard of Pink Hill.

Mrs. Betz Ill

Mrs. Floyd Betz of Grand Rapids, Minnesota who has been critically ill with blood poison at her home, is recovering satisfactorily. Mrs. Betz, the former Miss Elizabeth Turner is a daughter of Mrs. G. M. Turner of Pink Hill.

Prisoner Writes

A letter to his parents, Mr. and Mrs. Jones R. Raysdale of Williamston, S. C. from their son James Raysdale, reported missing in action in Korea several months ago, informed them that he is in a prison camp somewhere in the far east. He is a brother of Mrs. Hugh D. Maxwell, Jr. of St. Johns, Newfoundland and Washington, D. C. Mr. Raysdale has visited frequently in the home of Mr. and Mrs. H. D. Maxwell, Sr. in the Pink Hill vicinity.

Outlaw's Bridge

Mr. and Mrs. J. C. Outlaw and baby of Raleigh and Mr. and Mrs. Rudolph Howley of Wilson recently visited Mr. and Mrs. Alonzo Outlaw.

Mr. and Mrs. W. R. Jennette, Mr. and Mrs. Joe R. Parker of Mt. Olive and Mr. and Mrs. Lloyd D. Sutton of LaGrange have been recent visitors with Mr. and Mrs. J. Henry Parker.

Mr. and Mrs. Alvin Outlaw and children of Kinston visited Mr. and Mrs. I. V. Outlaw recently.

Garland Simmons of Ft. Lauderdale, Florida recently visited in the home of his brother Leroy Simmons.

Jasper G. Jones of Sparta, N. C. visited relatives here recently.

Mr. and Mrs. Harold Jones and baby of Goldsboro visited Mrs. Jones parents Mr. and Mrs. Luther Outlaw recently.

The A. U. W. held its first meeting of the new year with Mrs. Dun Smith Saturday Jan. 12 at 2:30

Mrs. Turner Is Bridge Hostess

Mrs. Lynwood Turner was hostess to a regular meeting of her bridge club at her home in Pink Hill Wednesday afternoon. Mrs. H. G. Tyndall scored highest for members and received top prize. Mrs. Jones Smith was the recipient of the prize for second high and Mrs. D. W. Ruffin received the consolation prize. High score prize for guests was won by Mrs. Levi Everett.

The hostess served a salad plate and soft drinks.

Miscellaneous Shower at Hut

Mesdames Frank Wiley and Zeb Williams were hostesses at a miscellaneous shower for Mrs. Bill Cade, recent bride at the V.F.W. hut in Pink Hill Tuesday night. Lime ice, bridal cakes, mints and salted nuts were served from a beautifully appointed table, centered with an arrangement of evergreens.

The honoree received many useful and attractive gifts.

Scotts Store Club Holds Regular Meet

The Scott's Store Home Demonstration Club met in the home of Mrs. Emmett Herring on Wednesday, January 2. The president, Mrs. Zolite Kornegay presided over the meeting. The project leaders gave their reports. Plans were made and discussed for serving

There is Nothing Finer than to Live in North Carolina

Once again February will start off with Ground Hog Day on the 2nd... and speaking of the weather the long range prediction is for plenty of it, but not too bad in North Carolina. There will be good days for early spring planting.

Special events—

- Feb. 2-3—Midwinter Skel Championships—Pinehurst
- Feb. 5-9—Golden Glove Championships—Charlotte
- Feb. 6-9—N. C. Duck Pin Mixed Doubles Championships—Wilmington
- Feb. 10—Partial Eclipse of the Moon
- Feb. 23-24—Southern Duck Pin Open Singles—Durham
- Feb. 25-28—Senior Golf Championships—Pinehurst

February has 29 days this year.

Did you know that "buckupettes" are so named because they were first made to feed hunting dogs to keep them quiet? Today in North Carolina they go good with a refreshing glass of beer—sold under our own state ABC system of legal control, that is working so well.

Expansion to Cost CP&L \$22,500,000

Raleigh, Jan. 9.—Carolina Power & Light Company plans to spend \$22,500,000 to expand its power resources and to connect new customers this year, and if Tide Water Power Company is merged with Carolina, that figure will grow to \$27,000,000.

Such expenditures were approved here today when the board of directors met to adopt the construction budget for 1952.

He estimated that additional construction with the next three years (1952-54 inclusive) will cost \$66,000,000 more, making the post-war expansion program total \$143,000,000. The latter figure includes expenditures that might be made in the Tide Water area.

Not only did more people receive electric services last year, but they used more electricity, according to a review of 1951 operations. Average annual consumption by residential customers ran to 3,000 kilowatt hours last year for the first time in the company's history.

Approximately 14,000 new customers were served, bringing the total to 274,000. Tide Water served 52,000 others, who may become CP&L customers this year.

The proposed merger has received approval from the North Carolina Utilities Commission, the South Carolina Public Service Commission, the Securities and Exchange Commission and from the directors of both companies. Proxies were mailed today to stockholders of both companies preparatory to stockholder meetings February 4 at which they are expected to approve the plan. Final approval then rests with the Federal Power Commission.

More customers and increased use of power since the company's sales to a new high of 2,735,000,000 kilowatt hours last year, or an increase of 18 per cent over the previous year.

To meet this increased demand, the company spent \$18,800,000 on new or expanded facilities during the calendar year. This included 1951 construction costs at the Goldsboro generating plant, the first unit of which went into operation last May.

Out of gross operating revenues the tax collector claimed the largest share. Federal, state, county and local taxes totaled \$9,063,000 compared with \$7,537,000 for 1950. The second largest sum went to payroll — or approximately \$6,000,000. The company's 30,000 stockholders got \$4,130,440.

Reviewing the power picture yesterday, Mr. Sutton told the company's directors that despite the extreme drought of last fall that Carolina Power & Light Company had been able to meet all its customers' requirements for electric power. In addition, he said, the company made over a quarter-billion kilowatt hours of energy available to neighboring industry outside its service area.

Mr. Sutton reported that the work of installing the new steam unit at the Quaker Neck plant near Goldsboro remains on schedule, which calls for its completion by next May.

Difficulty in obtaining structural steel, he noted, has delayed the new Lumberton unit but it is hoped that this unit will be ready for operation by early fall.

The two new units, fairly similar in capacity to the unit which began operating at Goldsboro last year, will be able to supply a billion kilowatt hours of electricity a year, if operated 85 per cent of the time.

o'clock. Mrs. Faison Smith was co-hostess. Miss Rachel Outlaw presided and called the meeting to order. Miss Pauline Outlaw Chaplain led the worship service, following the business period. Mrs. Leroy Simmons directed the program with Japan as the main topic, reports and discussions on the work of Universalism in Japan in previous years and the future outlook. Rev. L. C. Prater closed the meeting with prayer. A good attendance of members enjoyed a social hour while the hostess served refreshments.

Reports by the REA indicate that farmers are turning more and more to electric power for labor savings and for help in increasing farm production efficiency.

Expansion to Cost CP&L \$22,500,000

Raleigh, Jan. 9.—Carolina Power & Light Company plans to spend \$22,500,000 to expand its power resources and to connect new customers this year, and if Tide Water Power Company is merged with Carolina, that figure will grow to \$27,000,000.

Such expenditures were approved here today when the board of directors met to adopt the construction budget for 1952.

Most of the money will go into three new steam units to increase the company's generating capacity. One of these is being installed at Goldsboro and another at Lumberton. The third has been ordered but its location has not been determined. Sites are being considered in the Tide Water area.

Louis V. Sutton, president of Carolina Power & Light Company, told directors that the company had spent \$77,000,000 in the post-war expansion during the six years since World War II. He estimated that additional construction with the next three years (1952-54 inclusive) will cost \$66,000,000 more, making the post-war expansion program total \$143,000,000. The latter figure includes expenditures that might be made in the Tide Water area.

Not only did more people receive electric services last year, but they used more electricity, according to a review of 1951 operations. Average annual consumption by residential customers ran to 3,000 kilowatt hours last year for the first time in the company's history.
