**What Causes Delinquency?**

By Thelma D. Taylor

Supervisor of Public Welfare

Boy steals Carl Girl Stranded Here! Boy Kills Father!

We see such headlines often, we hear about such incidents and read about them. Perhaps we know of such cases. We ask "What is the world coming to?" In Duplin County eleven children were brought before the Juvenile Court during the month of February for reasons varying from playing hooky from school, through selling whiskey, and even deliberate murder.

As a public, we look at the act of the child. We say he is mean—he ought to be lashed, something terrible ought to happen to him. We think in terms of punishment for the wrongdoing. Nothing is too bad for him.

A child is the reflection of his parents. He is the result of his environment. He is a product of the economic situation. He is the expression of his school and the fruit of his church. All these factors combined together mold him into what he is. Just as a potter takes a piece of lifeless clay and by the use of his hands and the potter's wheel works that clay in to a beautiful object or a useful object, so can a child be molded. He is as clay—Society is the potter.

Clay is found in many different places and not in all places does it have the same qualities nor is it pliable to the same extent. Most of it must be cleared of its impurities before it can be used. The potter tries to get the best but he uses what he can get. He sifts it again and again to remove the impurities. If it becomes too dry he adds water to give it the right pliable status he needs, so that he

**The Risen Lord**

Lesson for April 13, 1952

In all the chrousing Easter music, in all the multitudinous many-voiced "I believe..." in the midst of the Easter lilies, is it hard to believe? Some find it so; and feel ashamed that in the presence of others' bright faith their own doubts rise darkly dim, their faith once clear and warm now grown opaque and cold. It is at Easter time that such a person finds his case most tragic. Doubt that echoes a universal loss of faith is almost natural; but why must doubt stand like a dark rock in a sunny meadow, cold in the midst of flowing springtime?

economic security, and social security. Let us repeat—He is the reflection of his parents, the result of his environment, a product of our economic system and an expression of the school and church. Society has failed that boy! It has failed others. It still is doing so.

**The Man of Dark Mind**

TRAGIC such loss of faith may be; but not new. For in Christ's first Twelve—we must say first Eleven, for Judas had sold himself to another—even in that choice company there was one who, on the First Easter, when the voice of all his friends spoke as one: He is risen! could only answer, "He is risen, indeed."

**The Last Boatload**

NOW the Lord Christ did not rebuke this man Thomas, when at last the two came face to face once more; nor did he praise him. He knew that Thomas had acted as a Thomas will.

**The Risen Lord**

SO Saint Thomas was wrong, and right. He was wrong if he thought: I cannot believe unless I see. The Christian way is not the seeing that is believing; it is the believing that is seeing.

1953 ACP

Development of the Agricultural Conservation Program for 1953 is now under way in the State. This program is different from previous programs in this respect: Each Community committeeman is to visit each farmer in his community and assist him in listing the practices most needed on his farm for conservation and increased production. Then before the start of the 1953 Program year the County Committee will visit each participating farmer of the practices approved for his farm.

**Time To Plan Fumigation Of Tobacco Soil**

By L. F. Weeks

Tobacco transplanting time is approaching which means that any farmer who plans to fumigate his soil to control nematodes should do this work or arrange for it to be done at an early date because the soil should be fumigated at least two (2) weeks before the plants are planted, or injury to the newly set plants may be experienced. There are two materials which are effective in the control of Root Knot.

**JUST BE A SPORT**

If you can't be first. Don't be last. Just be a sport. If the road is long, and nobody gives you a lift. Just be a sport. If you can't understand. No matter how. Just be a sport. If somebody does you wrong. Just move along. Just be a sport. If you can't succeed. You can try again. Just be a sport. If you want to quit. Just hold on a bit. Just be a sport. If it seems for you too late. Do not grumble at fate. Just be a sport. If you never win. Don't give in. Just die a sport.

**MY TROUBLES**

Today I packed my troubles up  
 And wrapped them with a smile  
 Then tied them with contentment  
 cord  
 And went singing all the while.  
 I'll give them to the junk man  
 To throw away for me  
 I hope he takes them far away  
 And throws them in the sea.  
 For how can I be happy  
 With worries great and small  
 I—just not keep them I grant you  
 Just throw away them all.  
 And then I'll wear a sunny smile  
 So all the world may see  
 Make others happy all the while  
 And then more contented I'll be.

**Hens Are Breaking Records As Easter Season Draws Near**

CHARLOTTE — Plenty of eggs will be available for Easter this year, according to one of the nation's leading egg distributors. "Hens have been laying more eggs in recent weeks than ever before," Barnett Gabriel, head of the National Egg and Poultry Department of A&P Food Stores, said today.

P. M. Bealer, Jr., of Charlotte, Vice-President of the Southern Division of the big grocery chain, added that present indications point to an adequate supply of fine eggs for boiling and coloring for Easter egg hunts.

Along with eggs, there will be an abundance of young chicken — broilers and fryers — and turkeys in all sizes for Easter-time eating. Thanks to improved production
