Wide Advances in Defrosting Mark Latest Refrigerators

A push-button device for automatic defrosting in seven to ten minutes.

Technology and science are making the homemaker's tasks easier every year. At The American Furniture Mart in Chicago, refrigerator models, more glamorous and more functional than ever, were introduced for the 1952 market. Designed to give more interior storage space with less over-all footage, the new line offers many labor-saving devices, automatic defrosting, door shelves, butter conditioners, and even colored interiors.

Work of Few Minutes
 Admiral Corporation has introduced "Flash Defrosting" in 9 and 11 cu. ft. models. This device, exclusive with Admiral, enables the homemaker to press a button for automatic defrosting in seven to ten minutes. Once defrosted the refrigeration cycle automatically begins again. This process simplifies the cleaning job, too, because the homemaker is right there to remove excess moisture and to clean out the interior.

The 11 ft. refrigerator with "Flash Defrosting" has a full-width freezer unit across the top which holds 60 pounds of frozen foods. Cooling coils across top and bottom provide extra large surfaces for fast freezing of ice cubes and desserts.

A full-width drawer under the freezing unit provides additional low temperature space for foods or ice cubes. A removable hand-tray in the freezer drawer permits the lifting of all foods at one time. This lightweight plastic tray also may be used as a server.

Other New Things
 A two-door dual-temp refrigerator also has been added to the Admiral line. This 12.2 cu. ft. model is the largest of its type, yet is only six inches wider and nine inches higher than the smallest of the new refrigerators. Seventy-seven pounds of frozen foods may be stored in its separate home freezer and in the freezer-door shelf which provides additional room for frozen juices or packaged vegetables. The unit is available with white or glacier blue interior with gold color trim, a butter conditioner and an ultra-violet lamp.

Another Admiral development is a completely automatic defrosting system which permits defrosting either day or night, whenever necessary, and automatically disposes of excess moisture.

SQUARE DANCE—Mount Olive Gymnasium every Saturday night at 8:00. Music by "The Rhythm Four Five One." Admission, 75c per person. "A clean dance for clean people," sponsored by the American Legion.

TEACHER WANTED AT POT-

NEW YORK—Sen. Estes Kefauver (D-Tenn.), who, during a press interview here, stated that if he would accept the candidacy for the Democratic nomination for President, it would not be with the intention of being nominated for second place on the ticket, is shown with his wife, Nancy, and his 80-year-old father, Robert Kefauver.

Legislative Status Of Bills On Agriculture

The following legislative status on bills in the U. S. Congress affecting Agriculture, as of April 15, 1952, is submitted by the North Carolina Farm Bureau:

1. Appropriations—House Appropriations Committee has completed action on all appropriation bills except Mutual Security. Most bills have passed House. Budget requests cut about 10 per cent. Senate Subcommittee hearings now in progress.
2. Universal Military Training—Bill in committee. Some pressure for reconsideration but such action not likely.
3. Defense Production Act Extension. Senate hearings completed. Bill to extend DPA one year recommended by Senate Banking and Currency Committee. House Committee to begin hearings late in April.
4. Federal Aid Highways Bill—House Public Works Committee has recommended bill authorizing \$550 million annually for 1954 and 1955 for road maintenance and construction.
5. Transportation Legislation—Over 20 bills pending. The Farm Bureau has testified in opposition to those which most directly affect agriculture, including bill to destroy agricultural exemption under Motor Carrier Act. Hearings concluded April 9.
6. Fair Trade Legislation—House consideration of H. R. 5767 rests in hands of leadership. Opposition to bill on increase.
7. Parity Price Revision. Senate Subcommittee conduction hearings.

TERS HILL SCHOOL for next school year. 5th-6th combination. Will accept "B" certificate. Write or see Ruffin Manning, Richlands, N. C. 4-24-2t pd.

In Seven Springs after the wedding. Later the couple left for a wedding trip to Georgia.

Miss Kornegay Is Honored With Shower

A miscellaneous shower honoring Miss Hazel Kornegay whose marriage to Raymond Grady will take place this month was given last Wednesday night by Mrs. Edd Grady. The color scheme of green and white was used throughout the house. The table was covered with a white linen cloth and centered with an arrangement of spring flowers. The honoree received many nice and useful gifts.

Guests were Miss Vennie Grady, Mrs. Willard Rouse, Mrs. Gordon Hussy, Mrs. Preston Hindson, Mrs. Thurman Hussey, Mrs. Leonard F. Grady, Mrs. Edward Davis, Mrs. Motte Holland, Mrs. Hazel Davis, Mrs. Rennie Williams, Mrs. Cameron Jones, and Mrs. Bennie Hussey. The hostess served salted nuts, cookies and soft drinks.

Magnolia Negro Dies Suddenly

Fred Carr, a 60 year old colored man of Magnolia, died suddenly Wednesday night, April 2 at his home. Funeral services were held at 2 o'clock Sunday afternoon in the Baptist church.

He is survived by his wife, six children, four girls and two boys, two sisters, fourteen grandchildren.

He was buried at the Swinson Cemetery at Magnolia.

Failure to fertilize crops adequately during one season merely increases the need during the following season.

Prior to World War I, American agriculture was entirely dependent on foreign sources for potash, but today private enterprise has brought the nation virtual "potash independence."

Scientists are giving increasing attention to the importance of secondary and minor elements—calcium, magnesium, sulfur, boron, manganese, copper, zinc and iron—in fertilizers.

The natural fertility of the soil, whether it is rich or poor in the beginning, is an important factor in determining the need for fertilizers.

To The Voters Of The 2nd. Commissioner District

I am asking for re-election as County Commissioner from the 2nd district for one more term. I had hoped to retire at the end of this term but due to the fact that the Duplin General Hospital is just beginning to get underway I would like to serve through its construction and see it off to a good start inasmuch as I have been involved in the program from its very outset until the present time.

There are others in my district just as capable as I am to represent you and they are entitled to an opportunity. I have tried to represent my district and all people of Duplin County to the best of my ability. There are a few more things I would like to do before retiring.

If nominated and elected this time I will not ask for the office again.

L. P. WELLS
