## Sara Joiner's Column

LOVE'S POWER IS LIKE A BOOMERANG The most creative and constructive power on this earth is the power of love. Love is like a boomerang, send it forth and it comes back to you with even greater force. There is a poem that tells us "Give love and love to your heart will flow, a strength in your utmost need." There was Elias Howe, broken in health and poverty stricken. He felt his life was over. Day after day he watched his frail wife slowly sewing with a needle in order to get them the money for the next meager meal. Beyond and above everything he loved his wife and it hurt him to watch her work so very hard. Because of his great love for her, he forgot his sick body and began thinking how he might help her. He went to work and in six months he had completed the very first model of his sewing machine. It made him famous and rich and it also made him well. The power of a great love came back to bless him.
