This hearing was scheduled at the request of the North Carolina Fire Insurance Rating Bureau, in order that they may justify the differential in the fire insurance rates for a building of brick construction.

All of us who love dogs must prove concrete-block construction; and of unapproved concrete block construction. The request for this hearing is a result of several conferences held with the Concrete-block Industry and the North Carolina Fire Insurance Rating Bureau, and a letter directed to the North Carolina Fire Insurance Rating Bureau by Commissioner Cheek of August 19, 1932 to justify the differential in these rates.
