SAVING B VITAMINS
Did you know that the way you prepared meat has an effect on its vitamin content? Meats which are roasted, broiled, or fried retain more of their B Vitamins than meats which are braised (pot roasted) or cooked in liquid.

This is because a certain portion of the B vitamins are dissolved out into the liquid. To retain most of the original vitamins of meats cooked in liquids it is necessary to use the liquids in making gravies, sauces, etc. When the amount of liquid is relatively large, as in cooking tongue or fresh corned beef, the liquid should be used for cooking such vegetables as beans cabbage or tomatoes.

Pressure cooked meats tend to retain more of their vitamin content than those braised in an oven or other covered pan.

50 Tables Of Bridge Played Pre-Xmas Party In Warsaw Legion Hut Dec. 2nd

One of the loveliest parties of the season was given in the American Legion home in Warsaw on Tuesday evening Dec. 2nd when Mrs. Frank Hobbs, Mrs. Ralph Best Jr., Mrs. Glenn Rollins, Mrs. H. C. Allen and Mrs. J. A. Porter entertained at 25 tables of desert bridge. The Christmas motif was carried out in the decorations and the refreshments.

The home was beautifully decorated with arrangements of gladioli, pyracantha, cedar and holly. The mantel arrangement was most outstanding with tall red gladioli interspersed with greenery and clusters of pyracantha. Red candles were on the end surrounded with twigs of cedar and holly. A colorful display of holly graced the piano. Each table was covered with a cloth suggestive of Christmas and centered with green lighted tapers. Christmas corsages marked the places.

On arrival, fruit cake topped with cream, salted nuts and coffee were served and during play, hot fruit punch was enjoyed. Those assisting in serving were Mrs. Polly Todd, Mrs. Eva Wiggins, Mrs. J. C. Brock and Mrs. W. C. Martin. Mrs. L. B. Hule was the high scorer and Mrs. J. H. Hines was runner up. Each received poinsettias.
