SPORTS AFIELD

By Ted Kesting

The one big question in the mind of a man or boy who is

thinking of buying a boat in kit form is, "Can I put it together so I'll have a good boat?"

Willard Crandall, expert on all matters concerning boating, says of course you can if you're at all handy with tools. Just the same, there are some "howevers." You've got to pick a model of good design, one suited to your waterways, your load and your motor or you may not have anything worth putting together.

Don't make your first attempt anything as large as an outboard cruiser. Practice with a pram will give you fundamental knowledge that can pay off if you want to tackle a big boat later.

Practically all kit boats are made of sheet plywood. For making assembly easy, there's nothing like plywood. It makes a good boat — for most small boats there is no better material.

Plywood has one drawback, however — it does not take abrasion too well. If you want to keep your boat always tied at a pier, or if you are going to drag it on shallow bottoms or pebbly beaches, usually it'll be best to pass up the plywood and kit idea.

A true round-bottom boat can't be built from sheet plywood. It won't bend that way. That's why

as with all others, most important is how good the design is—all lines of the design. That's more important often than whether it classes as round, V, or what have you. A sheet plywood V-bottom or semi-round bottom designed by a real expert and powered as he intended may not only be faster but more sea-worthy, too, than a roundbottom the lines of which aren't so good.

Tuscarora Scouts Making Plans To Attend National Jamboree Out West

Next July a delegation of Tuscarora Council Boy Scouts will be following the pioneer trails of our forefathers to the far west. They will join approximately 50,000 other Scouts from all parts of America in a great National Jamboree to be held at the Irvine Ranch, Santa Ana, California. Only two other such Jamborees have ever been held in this country, and the one this year promises to out do them all in fun, grandeur, and organization.

Just to give you an idea of the size of the 1953 Jamboree here are a few comparisons: There are only 27 cities in the United States with a population of 50,000 to 55,000 people. The Jamboree City will be the 28th. Scouts camped at the Jamboree will require 30,000 tents. 18,000,000 gallons of water will be used while the Scouts are there. Approximately 300 tons of food will be consumed daily. 600,000 quarts of milk and 175,000

loaves of bread will help fill up a hungry crowd of boys. Boys will swap things, sing songs, see wonderful shows and demonstrations, and swim in the Pacific Ocean. New and interesting things will be going on every moment.

The Tuscarora Scouts will travel by train to the Jamboree. They will sleep in Pullman Cars and eat in diners. They will have the opportunity to see a number of our Nation's large cities including Salt Lake City, Los Angeles, San Francisco, Seattle and Chicago. They will also tour Yellowstone National Park, and will cross Puget Sound by boat to Victoria B. C. It will be an opportunity to see our great country at its best. Our Scouts will come home knowing and loving America. Approximately thirty days will be required for the entire trip.

The health and well being of the group will be under the constant watchfulness of trained leaders. The best of medical skill will be available in event of need. The spiritual needs will be served by leading men of all faiths. Divine services will be held regularly. No trouble or expense will be spared to assure each boy an experience he will remember and treasure for the rest of his life.

The first registrants for the 1953 Jamboree from Tuscarora Council were Jack and Marvin Taylor, sons of Mr. and Mrs. Marvin Taylor of Smithfield. Other early registrants are Colton Cara and Troop 2, Goldsboro; Martin Well, Troop 27, Clinton; Louis Colwell III Post 39, Clinton; Tad

Coles, Troop 46, Faison; Larry McCullen, Troop 20, Warsaw; Arnold Leder Post 9, Goldsboro; Bert Herzog, Troop 1, Goldsboro; Jack

Brookhart, Troop 31, Smithfield and John Henderson, Troop 4, Goldsboro.

Tuscarora council expects to have one full Jamboree Troop of thirty three Scouts and two Adult Leaders. Total cost of the trip except for personal items will be \$415.00. Registrations for the Jamboree must be in the Council Office, Box 438 Goldsboro by February 15, 1953.

Scouts Jack and Marvin Taylor

Parathion is highly effective against plum curculio, Oriental moth, peach tree borers and scales, but it is also highly toxic to human beings and, as with all insecticides, care must be taken in handling it.

Happiness is largely a matter of having plenty of work to do that you like.

Billie Hit Parade

The top ten tunes of the week as selected from your cards and letters

- Compiled by NELSON KING and MARTY ROBERTS
1. Jambalaya (2) Hank Williams
 2. Back Street Affair (1) Hank Williams
 3. I'll Never Get Out of This World Alive (6) Hank Williams
 4. No Help Wanted (5) Carlisle

Cartoon Every Night

How Can You Be SURE? How can you be SURE of avoiding sudden, disabling accidents or serious illness? The answer is: you can't. But here's what you can do: You can be SAFE against the financial losses that usually go hand in hand with such misfortunes. For only a few cents a day — actually little more than what you pay for your daily newspaper — you can secure Accident and Health Insurance that will be your "friend in need" when misfortune strikes — pay your doctors' and hospital bills and keep a steady income rolling in while you are off the payroll. Compensate you liberally, too, for any permanent disability. Why take chances when it costs so little to be SAFE? Let us tell you the whole story... now.
